Philippines (2011-2012) Labor Turnover Survey 2011 (LTS 2011)

Overview	
Type	Enterprise/Establishment Survey [en/oth]
Identification	PHL-BLES-LTS-2011-v1
Version	Production Date: 2012-05-30 v2: Edited data, for public distribution.
Series	<p>The Labor Turnover Survey (LTS) is a quarterly sample survey of large enterprises in Metro Manila conducted by the Bureau of Labor and Employment Statistics (BLES) since the Second Semester of 2002.</p> <p>The survey is a spin off from the Employment, Hours and Earnings Survey (EHES), a survey of non-agricultural establishments with at least 20 workers. The EHES was conducted quarterly from 1989 to 1997 and semestral from 1998 until First Semester 2002.</p> <p>Note: Refer to Metadata in Technical Documents.</p>
Abstract	
<p>A. Objective The Labor Turnover Survey (LTS) aims to generate quarterly data on labor turnover (accession and separation rates) as indicators of labor market activity in large business enterprises.</p> <p>B. Uses of Data The information gathered in this survey is intended to generate timely labor market signals as sound basis in planning, policy formulation and decision making in government, business and industry.</p> <p>C. Main Topics Covered Total accession (due to expansion and replacement) Total separation (employer-initiated and employee-initiated)</p>	
Kind of Data	Sample survey data [ssd]
Unit of Analysis	Enterprise

Scope & Coverage

Scope

- Total Employment
- Total Accession (Due to Expansion and Replacement)
- Total Separation (Employer-Initiated and Employee-Initiated)
- Existing Job Vacancies (Number and type of occupations) at the end of the quarter
- Main Reasons for Separations

Topics LABOUR AND EMPLOYMENT [3], employment [3.1]

Geographic Coverage

National Capital Region

Geographic Unit

First District (Manila) : Tondo, Binondo, Quiapo, San Nicolas, Santa Cruz, Sampaloc, San Miguel, Ermita, Intramuros, Malate, Paco, Pandacan, Port Area, Santa Ana
Second District: Mandaluyong, Marikina, Pasig, Quezon City, San Juan

Third District: Kalookan, Malabon, Navotas, Valenzuela
 Fourth District: Las Pinas, Makati, Muntinlupa, Paranaque, Pasay, Pateros, Taguig

Universe

The top 8,000 Corporations in the Philippines as listed by the Securities and Exchange Commission (SEC). The universe was limited to the SEC list for two (2) reasons: (1) budget constraints and (2) to come up with manageable sample size that can provide DOLE officials with a quick/timely assessment of the labor market situations on a quarterly basis.

Note: Refer to Metadata in Technical Documents.

Producers & Sponsors

Primary Investigator(s)	Bureau of Labor and Employment Statistics, Department of Labor and Employment
Funding Agency/ies	Bureau of Labor and Employment Statistics (BLES)

Sampling

Sampling Procedure

The enterprise is the unit of enumeration in the LTS and it has for its sampling domain the fourteen (14) major industry groups (1-digit) based on the 1994 PSIC. The coverage of the survey was limited to large business enterprises in Metro Manila due to budget constraints and in line with the instruction of DOLE officials to conduct a quick/timely assessment of the labor market activity through a sample survey with manageable sample size. Metro Manila accounts for one-third of the country's gross domestic product and about two-thirds (64.5%) of the total large business enterprises in the Philippines.

The sampling frame was extracted from the Top 10,000 Corporations in the Philippines as compiled by the Securities and Exchange Commission (SEC). The frame contains the names of 3,064 enterprises in Metro Manila listed in order of their gross revenue/sales in 2011.

The sampling design is stratified random sampling wherein the 3,064 firms ranked according to revenue would be stratified into two. The first stratum would consist of the Top 200 firms and would be taken as certainty stratum which means that all of these 200 firms would be part of the sample. The second stratum would comprise the remaining 2,864 firms from which a random sample of 500 would be taken.

A total of 700 sample enterprises shall be taken.

Deviations from Sample Design

Replacement of sample enterprise is done when the sampled enterprise falls in one of the following situation during the field operation: (1) cannot be located; (2) refuse to answer; (3) temporarily closed; (4) duplicate of another sample enterprise; (5) permanently closed; or (6) on strike.

Response Rate

Weighting

Weights were not computed.

Data Collection

Data Collection Dates	1st Quarter 2010: start 2011-05-11 1st Quarter 2010: end 2011-08-12 2nd Quarter 2010: start 2011-07-24 2nd Quarter 2010: end 2011-09-05 3rd Quarter 2010: start 2011-10-04 3rd Quarter 2010: end 2011-12-11
------------------------------	--

	4th Quarter 2010: start 2012-01-17 4th Quarter 2010: end 2012-03-11
Time Period(s)	1st Quarter 2010: start 2011-01-01 1st Quarter 2010: end 2011-03-31 2nd Quarter 2010: start 2011-04-01 2nd Quarter 2010: end 2011-06-30 3rd Quarter 2010: start 2011-07-01 3rd Quarter 2010: end 2011-09-30 4th Quarter 2010: start 2011-10-01 4th Quarter 2010: end 2011-12-31
Data Collection Mode	Other [oth] mixed method: self-accomplished, mailed, e-mailed, faxed, face-to-face

Data Collection Notes

The conduct of training on data collection and field editing for field personnel was done a week before the actual data collection to ensure that statistical and survey standards are observed.

Survey Area Supervisors were assigned to allocate questionnaires to project-based field personnel. Sample questionnaires were distributed to field personnel based on their respective area assignments. They were also provided with FM-BLES 02-2.2a "Enumerator's Control List" where they can record the status of the questionnaires and contact information of the respondents.

Each enumerator was provided with a letter of introduction, signed by the BLES Director, to be presented to the sample enterprise. Upon reaching the enterprise, the enumerator introduces himself/herself to the receptionist or to any person who can refer him/her to the HRD/personnel manager or the designated employee responsible for answering government surveys. In such instance, the enumerator re-introduces himself/herself to this contact person.

The retrieval of questionnaires can be on-the-spot upon delivery. If not possible, the enumerator and respondent/contact person can agree on the pick-up date or the respondent can send the accomplished LTS form thru electronic mode, e.g., fax or e-mail as long as the certification portion is duly signed or noted by the contact person.

Survey status report on the questionnaire retrieval rate and performance rating of enumerators are done every 5th and 20th day of the month.

Questionnaires

The questionnaire contained the following information:

1. Name and Address of Enterprise
2. Main Economic Activity and Major Products/Goods or Services
3. Item of Information
 - I. Employment
 - A. Total Employment
 - II. Labor Turnover
 - A. Total Accessions (New Hires)
 1. Expansion
 2. Replacement
 - B. Total Separation
 1. Employee-initiated
 2. Employer-initiated

III. Existing Job Vacancies

4. Certification of Respondents

5. Survey Personnel

Note: Refer to sample questionnaires for each quarter.

Data Collector(s)	Bureau of Labor and Employment Statistics (BLES) , Department of Labor and Employment
--------------------------	---

Supervision

Survey supervisors for each area are assigned with the following roles:

- Participate in the training on data collection and field editing;
- Supervise field operation in their areas of assignments within the allotted time;
- Allocate, receive and control survey questionnaires;
- Check completeness and consistency of entries in retrieved questionnaires and return for verification those needing further clarifications to concerned enumerators;
- Deliver questionnaires if necessary, conduct follow-ups, spot checks and verification; monitor and evaluate the performance of field personnel for purposes of payment of salaries;
- Ensure the confidentiality of the data provided by the respondents.

Data Processing & Appraisal

Data Editing

Data are manually and electronically processed. Upon collection of accomplished questionnaires, enumerators perform field editing before leaving the enterprise to ensure completeness, consistency and reasonableness of entries in accordance with the Field Operations Manual. The forms were again checked for data consistency and completeness by field supervisors. The designated personnel undertook the final review, coding of information on classifications used, data entry and validation and scrutiny of aggregated results for coherence. Questionnaires with incomplete or inconsistent entries were returned to the establishments for verification, personally or through phone interview.

Note: Refer to Office Editing and Data Validation Guidelines in Technical Documents.

Other Processing

Processing involves the following activities:

- 1.) Batch labeling
- 2.) Office editing and coding
- 3.) Status monitoring and printing of Survey Status Report (5th and 20th of the month)
- 4.) Data entry (MS Access)
- 5.) Data validation
- 6.) Re-encoding of data
- 7.) Screen validation (Revalidation)
- 8.) Back-up MS Access database
- 9.) Conversion of file from the MS Access to SPSS
- 10.) Computation of weights and recoding of certain variables
- 11.) Output table generation

Note: Refer to Office Editing and Data Validation Guidelines and programs for table generation.

Estimates of Sampling Error

Not computed.

Other Forms of Data Appraisal

The results were validated with the previous year results in particular, the trend and patterns of data behaviour across industry.

Results were also checked in terms of their coherence with the results of the National Accounts, i.e, gross domestic product (GDP). It has been observed that the pattern of movement in the LTS data series closely follow that of GDP. This could be because NCR accounted for a sizeable share of GDP. The "rule of thumb" in LTS validation is that a high GDP is associated positive turnover rate and vice versa.

Confidentiality

The BLES and its field personnel shall hold all data supplied by the respondents in confidence. The information obtained shall be for statistical purposes only and not for taxation, regulation nor investigation purposes. The data shall be processed with others of the same category and shall be disseminated in summary form or statistical tables so as not to reveal the identity of any respondent.

Access Conditions

Access authority is granted to designated individuals within the concerned division. The designated personnel cannot reproduce, distribute, sell or lend the entire data or parts thereof to any other data user.

Variables Description

Dataset contains 368 variable(s)

File LTS 1Q 2011

#1 Itsno: LTS Control Number

Information	[Type= continuous] [Format=numeric] [Range= 1-19447] [Missing=*]
Statistics [NW/ W]	[Valid=637 /-] [Invalid=0 /-] [Mean=9239.52 /-] [StdDev=5770.691 /-]
Definition	A unique and fixed number assigned to each enterprise by the BLES for reference purposes.
Literal question	LTS Control Number

#2 batch: LTS Batch Number

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=637 /-] [Invalid=0 /-]
Definition	Number assigned to a compilation of questionnaires usually numbering 50. It is classified into two: spoilage and retrieved questionnaires.
Literal question	LTS Batch Number

Value	Label	Cases	Percentage

Definition Total Employment for October (Total Accessions - Total Separations)

This refers to the number of persons who worked or received pay from the enterprise and all its branches during the reference period. This includes the following: 1) Working Owners - owners who are actively engaged in the management of the enterprise but do not receive regular pay; 2) Unpaid Workers - persons working without pay and work for at least 1/3 of the working time normal to the enterprise; and 3) Paid Officials and Workers - include full-time/part-time workers; employees on paid leaves (e.g., sick/vacation/maternity/holiday/study leave); and employees working away from the enterprise but paid by and under the control of the firm. Excluded are workers hired through contractor/agency.
