FOREWORD

The *Report on Overseas Filipino Workers* contains information gathered by the National Statistics Office (NSO) through the Survey on Overseas Filipinos (SOF) conducted in 2003 and 2004. The 2003 SOF was conducted a rider to the October 2003 Labor Force Survey (LFS) while the 2004 SOF was a rider to the 2004 LFS.

The information from the 2003 SOF, which are presented in this report, pertain to the overseas workers who worked or have worked abroad from April to September 2003; while the 2004 SOF collected the same set of information about the overseas workers for the period April to September 2004. Among others, national and regional estimates on the number of overseas workers, their socio-economic characteristics, and remittances are presented in this report.

The SOF data are useful inputs to the formulation of policies and programs for the welfare of our overseas Filipino workers whom we call our “*bagong bayani*”. Government planners, migrant advocates, researchers, concerned citizens and other data users alike can make use of these data towards the upliftment of the well-being of our fellow Filipinos who continue to contribute to the country’s economic growth and development.

Our thousands of respondents deserve our sincere gratitude and high esteem for their participation and cooperation in the surveys. Our deepest appreciation also goes to the employees of the NSO for their commitment and support; their untiring efforts have ensured the successful completion of the survey. The survey would not have unearthed the mine of information without all of them.

I. SUMMARY OF FINDINGS

2003 SURVEY ON OVERSEAS FILIPINOS

- The number of Overseas Filipino Workers (OFWs) who worked abroad during the period April to September 2003 was estimated at 982 thousand. Of this total, 95.0 percent were Overseas Contract Workers (OCWs) or those with existing work contracts abroad.
- Among the regions, the National Capital Region (NCR) reported the largest number of OFWs (18.5%) while Caraga reported the least (1.0%)
- More than half of the OFWs were males, mostly coming from the NCR and CALABARZON.
- The bulk of OFWs were in the age group 25 to 34 years (42.6%).
- One-fourth of female OFWs were in the age group 25 to 29 while 22.8 percent of male OFWs were in the age group 45 and over.
- The majority of OFWs (76.6%) worked in Asia. More than one-third (34.6%) of these OFWs were in Saudi Arabia.
- Three in every ten OFWs worked as laborers and unskilled workers; of which, nine in every ten were sales and service workers.
- More than half (54.1%) of the female OFWs were sales and services workers while one in every four (24.2%) of male OFWs worked as drivers and mobile plant operators.
- Total remittance reached 70.4 billion pesos. Nearly seventy percent (65.9%) were sent by male OFWs.
- Seven in every ten OFWs (72.0%) sent cash remittance thru banks.
- The average cash remittance of male OFWs (76,000 pesos) was higher than those of female OFWs (42,000 pesos).
- A quarter (25.0%) of the total cash remittance was sent by OFWs in Saudi Arabia.
- OFWs working as plant and machine operators and assemblers sent the biggest remittance (10.3 billion pesos) while farmers sent the least (56 million pesos).

2004 SURVEY ON OVERSEAS FILIPINOS

- The number of Overseas Filipino Workers (OFWs) during the period April to September 2004 totaled 1.18 million. Of this total, 93.1 percent were OCWs or those with existing work contract abroad.
- CALABARZON exhibited the largest number of OFWs (218 thousand) while Caraga had the least with 12 thousand OFWs.
- Male OFWs outnumbered female OFWs. There were 105 male OFWs for every 100 female OFWs.
- One-fifth (20.6%) of the OFWs were in the age group 25 to 29. The majority of them were females (57.6%). Male OFWs were predominant in the age group 45 and over.
- Asia remained as the favorite destination of OFWs (76.4%).
- The largest number of male OFWs worked in Saudi Arabia while the majority of female OFWs were based in Hong Kong.
- One in every three (31.7%) OFWs worked as laborers and unskilled workers. Almost 85.0 percent of these were females.
- Nearly one-fourth (24.8%) of male OFWs worked as drivers and mobile plant operators.
- Total remittance sent by OFWs from April to September 2004 totaled 79.3 billion pesos. Two-thirds (67.1%) of these were sent by male OFWs.
- Male OFWs sent an average remittance of 101,000 pesos or 16,800 pesos per month while female OFWs sent an average remittance of 55,000 pesos or 9,200 pesos per month.
- Seven out of ten OFWs (71.9%) used banks in sending their cash remittance.
- More than 66 percent of the cash remittance were sent by OFWs in Asia.
- Among the major occupation groups, OFWs working as plant and machine operators sent the highest remittance of 12.8 billion pesos or 22.7 percent of the total remittance.

II. INTRODUCTION

A. BACKGROUND

The Survey on Overseas Filipinos (SOF) is a nationwide survey that seeks to gather information on Filipino citizens, including overseas workers, who left abroad during the last five years. Data on their remittances however, are gathered using the past six months. Hence, all statistics presented in this report pertain only to those Filipinos who worked or have worked abroad during the last six months preceding the survey period, that is, from April to September of the survey year.

The SOF is conducted every year as a rider survey to the October round of the Labor Force Survey (LFS).

The data collection of the characteristics of overseas workers started in 1982 using a one-page rider questionnaire in the Integrated Survey of Households (ISH) and continued until 1986.

In 1987, during the revision of the ISH Form 2 or the LFS questionnaire, a column indicator for overseas contract workers (OCWs) was added to get the estimate of the number of OCWs. With the increasing demand for information on overseas workers, the Survey on Overseas Workers (SOW) was resumed in 1991 revising the previous questionnaire to generate more comprehensive data.

Data on international migration were gathered in the 1988 National Demographic Survey (NDS). With the expanded coverage of the 1993 NDS on health and immunization, the section on international migration was deleted from the NDS but it was recommended for inclusion in SOW starting 1992. In 1993, the SOW was renamed to SOF.

B. OBJECTIVES OF THE SURVEY

The SOF aims to provide data on overseas Filipinos particularly the overseas contract workers and their contribution to the economy. Specifically, the survey has the following objectives:

- to obtain national estimates on the number of overseas Filipinos including overseas workers and their socio-economic characteristics
- to provide estimates on the amount of cash and in kind transfers received by the families and the modes of remittances.

C. AUTHORITY OF THE SURVEY

Commonwealth Act No. 591

(An act to Create a Bureau of the Census and Statistics to Consolidate Statistical Activities of the Government Therein) which empowers the Bureau to conduct by enumeration, sampling or other methods for statistical purposes, studies of social and economic problems of the country.

Presidential Decree No. 418

Reconstituting the Bureau of the Census and Statistics as a new agency under the administrative supervision of the National Economic and Development Authority to be known as the National Census and Statistics Office.

Executive Order No. 121

(Otherwise known as Reorganization Act of the Philippine Statistical System) renaming the National Statistics Office (NSO) which shall be the major statistical agency responsible for generating general purpose statistics and undertaking such censuses and surveys as may be designated by the National Statistical Coordination Board.

D. CONFIDENTIALITY OF THE INFORMATION

Information gathered by the NSO are protected by law, specifically, Commonwealth Act No. 591. Section 4 of the said law states that:

“the data furnished to the Bureau of the Census and Statistics will be kept strictly confidential and shall not be used as evidence in court for purposes of taxation, regulation or investigation; nor shall such data or information be divulged to any person except authorized employees of the Bureau of the Census and Statistics, acting in the performance of their duties; nor such data be published except in the form of summaries or statistical tables in which no reference to any particular individual, corporation, partnership, institution, or business enterprise shall appear...”

Persons violating the provisions of the above section shall upon conviction, be punished by a fine of not more than six hundred pesos or by imprisonment for not more than six months, or by both.

Furthermore, Section 17 of Executive Order No. 121 stipulates that “subject to existing laws, rules and regulations on confidentiality of information, any individual, institution or instrumentality shall be given access to unpublished data, provided that the cost incurred is assumed by the requesting party, in accordance with existing laws, rules and regulations.”

E. SCOPE OF THE SURVEY

The SOF is a nationwide survey involving a probability sample of about 51,000 households. The households to be interviewed are considered representative samples of private households in all provinces of the country.

The survey aims to collect data on overseas Filipinos and their socio-economic characteristics.

F. SAMPLING DESIGN

The SOF, as a rider to the LFS, used the sampling design of the 2003 Master Sample (MS) for Household Surveys starting July 2003.

1. Domain

The 2003 MS considers the country’s 17 administrative regions as defined in Executive Orders (EO) 36 and 131 as its sampling domain. A domain is referred to as a subdivision of the country in which estimates with adequate level of precision is generated. It must be noted that while there is demand for data at the provincial level (and to some extent municipal and barangay levels), these were not treated as domain because of its large number (more than 80) and the large resource requirement that goes along with it. Below are the 17 administrative regions of the country:

| | |
|----------------------------------|---------------------------------|
| National Capital Region | Region VII – Central Visayas |
| Cordillera Administrative Region | Region VIII – Eastern Visayas |
| Region I – Ilocos | Region IX – Zamboanga Peninsula |
| Region II – Cagayan Valley | Region X – Northern Mindanao |
| Region III – Central Luzon | Region XI – Davao |
| Region IVA – CALABARZON | Region XII – SOCCSKSARGEN |
| Region IVB – MIMAROPA | Region XIII – Caraga |
| Region V – Bicol | Autonomous Region in Muslim |
| Region VI – Western Visayas | Mindanao |

2. Sampling Frame

As in most household surveys, the 2003 MS made use of an area sample design. For this purpose, the Enumeration Area Reference File (EARF) of the 2000 Census of Population and Housing (CPH) was utilized as sampling frame. The EARF contains the number of households by enumeration area (EA) in each barangay.

This frame was used to form the primary sampling units (PSUs). With consideration of the period for which the 2003 MS will be in use, the PSUs were formed/defined as a barangay or a combination of barangays with at least 500 households.

3. Sample Size

The 2003 MS consists of a sample of 2,835 PSUs of which 330 were certainty PSUs and 2,505 were non-certainty PSUs. The entire MS was divided into four sub-samples or independent replicates, such as a quarter sample contains one fourth of the PSUs found in one replicate; a half sample contains one-half of the PSUs in two replicates. The SOF as a rider to the LFS utilizes the full sample.

4. Stratification

The 2003 MS considers the 17 regions of the country as the primary strata. Within each region, further stratification was performed using geographic groupings such as provinces, highly urbanized cities (HUCs) and independent component cities (ICCs). Within each of these substrata formed within regions, the PSUs were further stratified, to the extent possible, using data on the proportion of occupied housing units with roofs and outer walls made of strong materials (PSTRONG), proportion of households engaged in agriculture (AGRI), and a measure of per capita income (PERCAPITA).

PSTRONG was calculated using the data from the 2000 CPH. A roof is considered made of strong material if it is made of either galvanized iron, aluminum, concrete or clay tile, half galvanized-half concrete or asbestos. The outer wall is considered made of strong material if it is made of concrete, brick, stone, wood, half concrete-half wood, galvanized iron, asbestos or glass.

AGRI was determined in the following way: initially, an indicator variable was computed at the barangay level. That variable has the value 1 if more than 50 percent of the households in the barangay are engaged in agriculture or fisheries and 0 otherwise, based on the 2000 CPH Barangay Schedule. To obtain a measure at the PSU level, a weighted average of the

barangay indicator variable was computed for all the barangays within the PSU, weighted by the total number of households in the barangay. Thus, the value of AGRI at the PSU level lies between 0 and 1.

PERCAPITA is defined as the total income of the municipality divided by the total population in that municipality. Note that the PERCAPITA value of the PSUs is the same if the PSUs are in the same municipality. The data on municipal income refers to year 2000 and was taken from the Department of Finance. However, if the 2000 municipal income was not reported to the Bureau of Local Government Finance (BLGF), 2001 income was used. If no 2000 or 2001 municipal income was reported, the income classification from the BLGF for this municipality was obtained. Using the data on income, which are presented in income intervals, the average of the lower and the upper values of the income interval for the municipal class to which the municipality belongs was determined.

5. Sample Selection

To have some control over the subsample size, the PSUs were selected with probability proportional to some estimated measure of size. The size measure refers to the total number of households from the 2000 CPH. Because of the wide variation in PSU sizes, PSUs with selection probabilities greater than 1 were identified and were included in the sample as certainty selections.

At the second stage, enumeration areas (EAs) were selected within sampled PSUs, and at the third stage, housing units were selected within sampled EAs. Generally, all households in sampled housing units were enumerated, except for few cases when the number of households in a housing unit exceeds three. In which case, a sample of three households in a sampled housing unit was selected with equal probability.

An EA is defined as an area with discernable boundaries within barangays, consisting of about 150 contiguous households. These EAs were identified during the 2000 CPH. A housing unit is a structurally separate and independent place of abode which, by the way it has been constructed, converted, or arranged, is intended for habitation by a household.

G. CONCEPTS AND DEFINITIONS

Who are the Overseas Filipinos?

For the purposes of this survey, the following are considered as overseas Filipinos as long as their departure occurred within the given five-year period:

1. Filipino OCWs who are presently and temporarily out of the country to fulfill an overseas work contract for a specific length of time or who are presently at home on vacation but still has an existing contract to work abroad. They may either be landbased or seabased.
 - a. *Landbased workers* – OCWs who are hired either by direct hiring of an employer abroad or through the assistance of Philippine Overseas Employment Administration (POEA) or through a private and licensed recruitment agency. They may have returned to the Philippines for a vacation (annual or emergency leave), or have transferred to other employers, or were rehired by their former employer.
 - b. *Seabased workers* – OCWs who worked or are working in any kind of international fishing/passenger/cargo vessels. Included also are OCWs who worked or are working for a shipping company abroad.
2. Other Filipino workers abroad with a valid working visa or work permits. Included also are crew members of airplanes such as pilots, stewards, stewardesses and others whose employers are foreign nationals.
3. Other Filipino workers other than those who work on contractual basis. These include Filipinos who went out of the country through backdoor means and worked there during the reference period.
4. Filipinos whose place of employment is outside the Philippines but whose employer is the Philippine government.
5. Filipinos who are sent abroad by the Philippine government or by private institutions for training, scholarship or any other similar purpose, even if they are known to be working abroad.
6. Filipinos working in other countries who are hired as consultants/advisors of international organizations such as the United Nations, International Monetary Fund and others.
7. Filipino immigrants and residents in other countries.
8. Filipinos abroad who are holders of other types of non-immigrant visa such as visa for tourist/visitor, student, medical treatment, and others.

Who are the Overseas Filipino Workers?

OFWs include OCWs who were presently and temporarily out of the country during the reference period to fulfill an overseas contract for a specific length of time or who were presently at home on vacation during the reference period but still had an existing contract to work abroad. Also included were other Filipino workers abroad with valid working visas or work permits. Those who had no working visa or work permits (tourists, visitors, students, those seeking medical treatment, and other types of non-immigrants) but were presently employed and working full time in other countries were also classified as OFWs.

H. LIMITATIONS OF THE SURVEY

The SOF has the following limitations:

1. Ideally, information about overseas Filipinos should be obtained directly from them. However, since this is not always possible, the information has to come from their relatives or any member of the household who knows the person who left for abroad. The OFWs included in this report are those whose families still reside in the country as of time of visit.
2. The OFWs covered in this report were those working abroad during the period April 1 to September 30 of the reference year. The workers who were at home on vacation from their jobs abroad, or those who left earlier than April 1 of the reference year were also included in this report as long as they worked during the specified reference period.
3. The SOF did not ask for the total salary received by the OFWs. Hence, the remittances presented in the report may just be part of the total salary received by the OFWs.

Starting July 2003 round of the LFS, the generation of the labor force and employment statistics has adopted the 2003 Master Sample (MS) Design, with a larger sample size. The number of samples increased from 41,000 in the previous MS to around 51,000 sample households in the 2003 MS. The SOF, being a rider of the LFS, has also adopted the new master sample design starting October 2003. Careful evaluation must be made in comparing the results of the 2003 and 2004 SOF with other SOF results prior to the implementation of the 2003 MS design.

The regional grouping under Executive Order No. 36 (*Providing for the Reorganization of the Administrative Regions in Mindanao and for Other Purposes*) which was signed on September 19, 2001 was adopted for the 2003 and 2004 results. The province of Basilan (excluding Isabela City) is under Autonomous Region in Muslim Mindanao while Isabela City (Basilan) is under Region IX.

III. HIGHLIGHTS OF THE SURVEY ON OVERSEAS FILIPINOS (SOF)

Overseas Filipino Workers (OFWs) in April to September 2004 reaches 1.18 million . . .

The number of Overseas Filipino Workers (OFWs) who worked abroad during the period April to September 2004 reached 1.18 million, up by 20.2 percent from 982 thousand a year ago. Of this total, 93.1 percent (1.10 million) were overseas contract workers (OCWs) or those with existing work contracts abroad. Their number also went up by 17.7 percent from 933 thousand in 2003.

Source: National Statistics Office, Survey on Overseas Filipinos

An increase in the number of OFWs from 2003 to 2004 was observed in all regions except in Cagayan Valley. Autonomous Region in Muslim Mindanao (ARMM) posted the biggest increase of more than 100 percent. Region VIII (Eastern Visayas) and Region III (Central Luzon) came next with 42.1 percent and 38.7 percent, respectively.

Fifteen regions exhibited increases in the number of OCWs during the six-month period of 2003 and 2004 with ARMM leading again. SOCCSKSARGEN had about the same number in two years and Cagayan Valley showed a decrease of 4.8 percent during the periods covered.

CALABARZON has the largest number of OFWs . . .

Source: National Statistics Office, Survey on Overseas Filipinos

CALABARZON reported the biggest number of OFWs with 218 thousand; of which 92.6 percent (202 thousand) were OCWs. NCR and Central Luzon followed with 203 thousand and 165 thousand OFWs, respectively. Almost half (49.7%) of the total OFWs came from these three regions. Meanwhile, Caraga reported the least number of OFWs at 12 thousand.

Female OFWs increase by 21.5 percent . . .

Of the 1.18 million OFWs, 51.2 percent were males while 48.9 percent were females. The number of female OFWs went up by 21.5 percent (102 thousand) in 2004 from 475 thousand in 2003. The number of male OFWs also increased by 18.9 percent or 96 thousand, from 508 thousand in 2003.

An increase in the number of male and female OFWs was observed in all age groups.

Source: National Statistics Office, Survey on Overseas Filipinos

One in every four female OFWs in 2003 (25.7%) and 2004 (24.3%) belonged to the 25 to 29 age group. On the other hand, one in five (23.7%) of the male OFWs were aged 45 and over for both years.

Source: National Statistics Office, Survey on Overseas Filipinos

Most OFWs work in Asia . . .

Seven out of ten OFWs worked in Asia both in 2003 (76.6%) and 2004 (76.4%) with 752 thousand and 902 thousand workers, respectively. In 2003, 94 thousand worked in North and South America and 92 thousand worked in Europe. On the other hand, 126 thousand OFWs worked in Europe and 108 thousand were in North and South America in 2004.

Source: National Statistics Office, Survey on Overseas Filipinos

Among the workers in Asia, the largest number were employed in Saudi Arabia with 260 thousand in 2003 and 258 thousand in 2004, Hong Kong (115 thousand), Japan (103 thousand) and Taiwan (66 thousand) were the top destinations for OFWs. In 2004, Japan came in second with 115 thousand workers; followed closely by Hong Kong with 109 thousand and Taiwan with 75 thousand.

In 2003 and 2004, Saudi Arabia remained to be the leading destination for male OFWs (182 thousand and 188 thousand, respectively), and Hong Kong, for female OFWs (109 thousand and 103 thousand, respectively).

One in every three OFWs are laborers and unskilled workers . . .

About 32 percent of OFWs in 2003 (312 thousand) and 2004 (374 thousand) were laborers and unskilled workers. Plant and machine operators and assemblers came next with around 16 percent, followed by trade workers estimated at 15 percent, both for 2003 and 2004.

Source: National Statistics Office, Survey on Overseas Filipinos

Of the 374 thousand laborers and unskilled workers in 2004, 86.1 percent were sales and service elementary workers, 13.1 percent were laborers in mining, construction, manufacturing and transport and the rest (0.8%) were workers in agriculture, forestry, fishery or laborers in related occupations.

Remittances in 2004 amount to 79.3 billion pesos . . .

The total remittance of OFWs from April to September 2004 was estimated at 79.3 billion pesos. This is higher by 8.9 million pesos from the 70.4 billion pesos recorded for the same period of the previous year. These remittances included cash sent (56.2 billion pesos), cash brought home (19.2 billion pesos) and remittance in kind (4.0 billion pesos).

Source: National Statistics Office, Survey on Overseas Filipinos

The average remittance within the six-month period was estimated at 79,200 pesos per OFW, a decrease of 2,900 pesos from 82,100 pesos in the previous year. On the average, male OFWs sent higher remittances than female OFWs.

Seven in every ten OFWs send cash remittances through banks . . .

Source: National Statistics Office, Survey on Overseas Filipinos

Cash remittances sent through banks from April to September 2004 amounted to 42.8 billion pesos or about 76 percent of total cash remittances. Cash sent through door-to-door delivery amounted to 11.0 billion pesos or 19.6 percent while the remaining 2.3 billion pesos or 4.2 percent were remitted through agency or local office, friends or co-workers or other means.

Of the 950 thousand OFWs sending cash remittances, about 683 thousand or seven in every 10 OFWs used the bank while around 216 thousand or 22.7 percent used the door-to-door delivery system. About 6.0 percent or 52 thousand remitted through agency or local office, friends/co-workers and other means.

OFWs in Asia send 37.4 billion pesos of cash remittances . . .

OFWs working in Asia sent the biggest cash remittance of about 37.4 billion pesos. OFWs in Europe remitted 8.4 billion pesos, while those in North and South America sent 7.2 billion pesos.

Of the total cash remittance sent by the 720 thousand OFWs in Asia, the biggest came from the OFWs in Saudi Arabia in the amount of 12.2 billion pesos.

Source: National Statistics Office, Survey on Overseas Filipinos

Plant and machine operators and assemblers send the biggest cash remittance. . .

Of the total cash remittance sent by OFWs, almost 13 billion pesos were from plant and machine operators and assemblers followed by that sent by laborers and unskilled workers with 11.7 billion pesos. Coming in third were the remittances made by those who worked as trade workers with 9.2 billion pesos.

Source: National Statistics Office, Survey on Overseas Filipinos

OFWs who worked as officials of government and special-interest organizations, corporate executives, managers and managing proprietors and supervisors had the highest average cash remittance with about 98,900 pesos per person during the period April to September 2004. This is followed by professionals with 82,500 pesos and plant and machine operators and assemblers with 76,700 pesos.
