INSTRUCTIONS TO INTERVIEWERS

1. Interview the family head or any member of the family who is responsible in the management of the family finances.
2. Ask the respondent for commodities/services that a family purchased/consumed/availed of most of the time for a given reference period in the order they are presented in the questionnaire.
3. Write the required specifications for each commodity/service.
4. Specify the type of outlets where these commodities/services were commonly purchased/availed of.
5. Write entries in printed letters or encircle appropriate codes.
6. Use loose pre-printed blank sheet to include additional commodities where spaces are not enough in the questionnaire.

REMINDERS:

☞ A **family** is different from a household. Family members exclude household helpers, boarders, and non-relatives while household members include all of them for as long as they sleep in the same housing unit and have common arrangement in the preparation and consumption of food.

☞ In replacing sample household, the new sample household should be taken from the control list of replacements.

☞ Commodities/services purchased/availed of by the sample household for purposes of giving away as gifts, and donations for charitable institutions during the period June 2007 to May 2008 are not considered as part of the family consumptions in this survey. Purchases of these commodities are therefore, **excluded**.

☞ Uncanned and unprocessed meats cuts, e.g. pork chops, sold in the market are considered as fresh meat. Only those meat cuts, which have been processed or cured like sweetened pork chops, are included in other preserved or processed meat and meat-based preparations group.

☞ Exclude vehicles that are being amortized during the reference period but were purchased before June 2007.

☞ In cases when spaces provided in the questionnaire are not enough because of the many common commodities/services purchased/availed by the sample household, use a pre-printed blank sheet for the inclusion of the commodities/specifications. The household identification should be written on the space provided on the pre-printed blank sheet. This should be stapled at the back of its corresponding questionnaire.

☞ In case the space provided for specifications of the commodity/service is not enough, write other specifications that best describe the commodity/service in the **Remarks** portion (located at the bottom part on the same page of the questionnaire).
