Organization have more than 15 projects to report, please copy and paste the table above and fill in the table. TI

Note:

- (1) Provide name/title of the statistics project or program being funded. If it is a project under a larger program, include in parenthesis the name of the program.
- (2) Provide rationale for the project.
- (3) Indicate the objective/s of the project. If it is part of a bigger program, include the general objective of the program.
- (4) To identify the statistical area where the project belongs, please refer to the UNECE Classification of Statistical Activities, as modified to suit the Philippine setting (see Attached elaborated CSA) Include all relevant areas (maybe multi-domain). http://ec.europa.eu/eurostat/ramon/other_documents/csa/csa_rev_1_october_2009.pdf
- (5) Indicate the outputs/deliverables from the project (e.g., revised methodology, new indicators, training of personnel, manual of operations, etc.).
- (6) Specify all statistical activities involved in the project (e.g., data collection/survey, training, data analysis, etc.)
- (7) Implementing agencies refer to government agency/ies with primary responsibility to deliver outputs. The cooperating agencies may be included in parenthesis, if necessary.
- (8) Indicate the start and end dates of the project.
- (9) Refers to the month and year the project was approved for funding.
- (10) Refers to the month and year the project ended (or is expected to be terminated).
- (11) Source of financing could be a bilateral and/or multilateral donor, development partner (e.g., UN agency), private sector, non-government organization, private individuals that are outside of the government.
- (12) Specify if the type of support is 1 - financial assistance; 2 - technical assistance; 3 - others. For technical assistance and others, provide specific details (e.g., statistics adviser on national accounts, training on environment statistics, etc.)
- (13) Total financing cost committed refers to the cost of the project as approved. If the type of support is technical or others, indicate the
- (14) Provide information on the breakdown of financing by expenditure category (personnel costs, maintenance and operating costs, capital
- (15) Provide information on the counterpart fund provided by government to the statistics project, if any. If personnel services only,
- (16) Additional information about the project.
- (17) Indicate whether the project was institutionalized or not. Programs/projects are said to be institutionalized when some/all of their component activities are/will be undertaken regularly. If yes, indicate specific and agency-driven statistical policies, laws and programs that emanated/benefited from the project outputs. If no, state the reason/s.
- (18) The Philippine Statistical Development Program (PSDP) 2011-2017 Strategic Plan (Volume 1) can be accessed at:
- (19) Basis for the information cited about the project.
