Overview

Identification

ID NUMBER
DDI-PHL-PSA-LTS-2019-V2.0

Version

VERSION DESCRIPTION
V2.0 Final dataset for official estimates

PRODUCTION DATE
2020-12-18

Overview

ABSTRACT
The LTS aims to generate quarterly data on labor turnover (accession and separation rates) as indicators of labor market activity in small, medium and large business establishments.

The information gathered in this survey is intended to generate timely labor market signals as a sound basis in planning, policy formulation and decision making in government, business and industry.

KIND OF DATA
Sample survey data [ssd]

UNITS OF ANALYSIS
Establishments

Scope

NOTES
- Total Employment

- Total Accession (Due to Expansion and Replacement)

- Total Separation (Employer-Initiated and Employee-Initiated) with corresponding reasons

- Agency-hired Workers

- Existing Job Vacancies (Number and type of occupations) at the end of the quarter

TOPICS

Topic	Vocabulary	URI
Business statistics	Philippine Statistics Authority	
Business and agricultural surveys	Philippine Statistics Authority	

Coverage

GEOGRAPHIC COVERAGE
National Capital Region

NCR 1 - Manila, San Juan, and Mandaluyong

NCR II - Marikina and Quezon City

NCR III - Makati, Taguig, Pasig and Pateros

NCR IV - Caloocan, Malabon,, Navotas and Valenzuela

NCR V - Pasay, Parañaque, Las Piñas and Muntinlupa

UNIVERSE
The 2019 LTS samples was extracted from the preliminary 2018 List of Establishments (LE) as of 08 January 2019.

This list was a product of 2018 Updating of List of Establishments (ULE). The updating involved complete enumeration of establishments in the barangay where "no matched" establishments (establishments listed in other sources but not in the LE) from prioritized secondary sources are located, barangay with new malls, barangay having establishments with total employment of 100 and over, barangay with the highest number of establishments from typhoon Yolanda affected cities/municipalities and barangays with the highest number of establishments for some provinces. Also covered using mail inquiry, were other "no matched" establishments including those located in distant barangays.

Other sources of updates are the survey feedbacks from the 2016 Annual Survey of Philippine Business and Industry (ASPBI) and 2018 3rd Quarter Labor Turnover Survey (LTS).

A total of 18,326 establishments in NCR with employment size of at least 20 workers extracted from the 2018 List of Establishments comprised the LTS 2019 sampling Frame.

Note: Refer to Metadata in Technical Documents.

Sampling

Sampling Procedure

The establishment is the unit of enumeration. The 18,326 sample establishments in NCR included in the frame were stratified based on the eighteen (18) sections as domains.

The initial sample size per stratum was obtained by taking into account the computed highest Coefficient of Variation (CVh) at the national level between the estimates on Accession and Separation rates from the final result of the 3rd Quarter 2018 LTS and a target Coefficient of Variation.

A total of 18,326 samples was computed and was further reduced to 1,209 establishments during the 3rd and 4th quarter 2019 LTS. As a sound basis in the reduction of the number of samples, a study has been made on the reliability of data using previous survey results. The study showed thar regardless of the number of samples taken, data were still reliable.

Note: Refer to Metadata and Field Operations Manual in Technical Documents.

Response Rate

1st Qtr - 90.80%
2nd Qtr - 91.90 %
3rd Qtr - 65.10 %
4th Qtr - 60.60 %

Weighting

Weights were computed as the ratio of the estimated population of establishments to the number of responding establishments.

$W_i = N_i/n_i \times n_i''/n$

Where
W_i - Weight in the ith industry stratum
N_i - Total number of establishments in the frame ith industry stratum
n_i - Number of sample establishments in the ith industry stratum
n' - Number of responding establishments in the ith industry stratum
n'' - Number of eligible units in the ith industry stratum

Note: Refer to Metadata

Questionnaires

Overview

The 2019 Labor Turnover Survey questionnaire has been designed to capture key labor market trends in the formal sector of the economy.

The comments/suggestions provided by the Standard Service thru the Statistical Survey Review and Clearance System (SSRCS) for the improvement of the questionnaire were incorporated as follows:
a.) Use of boxes when coding the PSGC and PSIC to insure the completeness of the code.
b.) Change Average Total Employment (ATE) to Total Employment (TE).
c.) Add boxes for the 2009 PSIC code.

The questionnaire contained the following information:

1. Name and Address of Establishment

2. Main Economic Activity and Major Products/Goods or Services

3. Item of Information

I. Employment
A. Total Employment (Month 1, Month 2, Month 3)

II. Labor Turnover
A. Total Accessions (New Hires)
1. Expansion
2. Replacement

B. Total Separation
1. Employee-initiated
1.1 Reason
2. Employer-initiated
2.1 Reason

III. Agency-hired Workers (if any)
a. Total Accessions (New Hires)
b. Total Separations

IV. Existing Job Vacancies at the end of the Quarter

4. Certification of Respondents

5. Survey Personnel

Data Collection

Data Collection Dates

Start	End	Cycle
2019-08-05	2019-10-11	1st Quarter 2019 and 2nd Qtr 2019
2020-02-19	2020-04-22	3rd Quarter 2019 and 4th Quarter 2019

Time Periods

Start	End	Cycle
2019-01-01		1st Quarter 2019
2019-04-01		2nd Quarter 2019
2019-07-01		3rd Quarter 2019
2019-10-01		4th Quarter 2019

Data Collection Mode

Face-to-face [f2f]

Data Collection Notes

The conduct of training on data collection and field editing for field personnel was done a week before the actual data collection to ensure that statistical and survey standards are observed.

Survey Area Supervisors were assigned to allocate questionnaires to job order field personnel. Sample questionnaires were distributed to field personnel based on their respective area of assignments. They were also provided with "Enumerator's Control List" where they can record the status of the questionnaires and contact information of the respondents.

Each enumerator was provided with a letter of introduction to be presented to the sample establishment. Upon reaching the establishment, the enumerator introduced himself/herself to the receptionist or to any person who referred him/her to the HRD/personnel manager or the designated employee responsible for answering government surveys. In such instance, the enumerator re-introduced himself/herself to this contact person.

Some of the questionnaires were retrieved on-the-spot upon delivery. If not, the enumerator and respondent/contact person agreed on the pick-up date or the respondent was advised to send the accomplished LTS form thru electronic mode, e.g., fax or e-mail with the certification portion duly signed or noted by the contact person.

Questionnaires

The 2019 Labor Turnover Survey questionnaire has been designed to capture key labor market trends in the formal sector of the economy.

The comments/suggestions provided by the Standard Service thru the Statistical Survey Review and Clearance System (SSRCS) for the improvement of the questionnaire were incorporated as follows:
a.) Use of boxes when coding the PSGC and PSIC to insure the completeness of the code.
b.) Change Average Total Employment (ATE) to Total Employment (TE).
c.) Add boxes for the 2009 PSIC code.

The questionnaire contained the following information:

1. Name and Address of Establishment

2. Main Economic Activity and Major Products/Goods or Services

3. Item of Information

I. Employment
A. Total Employment (Month 1, Month 2, Month 3)

II. Labor Turnover

Data Collectors

Name	Abbreviation	Affiliation
Philippine Statistics Authority	PSA	National Economic and Development Authority

Supervision

The personnel from the PSA Field Offices supervised the data collectors/survey researchers in their respective field offices. In provinces/areas where there were relatively many establishments to be covered, area supervisors were hired to assist the survey researchers/encoders in the supervision of data collection activities as well as the manual and machine processing.

Data Processing

Data Editing

Please refer to Field Operations Manual for editing guidelines on consistency checks among item on page 25.

Data Appraisal

Establishment Control Number (ECN)
File: LTS 1Q 2019

Overview

Type: Discrete
Format: character
Width: 255

Description

Establishment control number

Literal question

Establishment Control Number

Province (Prov)
File: LTS 1Q 2019

Overview

Type: Discrete
Format: character
Width: 2

Valid cases: 1854
Invalid: 0

Description

The third and fourth digits of a nine-digit code that refer to the geographical location of the establishment.

Literal question

Province

Municipality (City_Mun)
File: LTS 1Q 2019

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0

Description

The fifth and sixth digits of a nine-digit code that refer to the geographical location of the establishment.

Literal question

Municipality

Barangay (Bgy)
File: LTS 1Q 2019

Overview

Type: Discrete
Format: numeric
Width: 3
Decimals: 0

Description

The last three digits of a nine-digit code that refer to the geographical location of the establishment.

Literal question

Barangay

Rev PSIC (rev_PSIC)
File: LTS 1Q 2019

Overview

Type: Discrete
Format: numeric
Width: 3
Decimals: 0

Description

Revised industry code of the establishment found during field operation.

Literal question

Rev PSIC

Survey Status (Status)
File: LTS 1Q 2019

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0

Description

-+*6Total Employment for January (Total Accessions - Total Separations)

This refers to the number of persons who worked or received pay from the establishment during the reference period. This includes the following: 1) Working Owners - owners who are actively engaged in the management of the enterprise but do not receive regular pay; 2) Unpaid Workers - persons working without pay and work for at least 1/3 of the working time normal to the enterprise; and 3) Paid Officials and Workers - include full-time/part-time workers; employees on paid leaves (e.g., sick/vacation/maternity/holiday/study leave); and employees working away from the establishment but paid by and under the control of the firm. Excluded are workers hired through contractor/agency.

Literal question

Decimals: 0	Maximum: 12770
Range: 0-12770	Mean: 194.9
	Standard deviation: 666.5

Description

Total Employment for April (Total Accessions - Total Separations)

This refers to the number of persons who worked or received pay from the establishment during the reference period. This includes the following: 1) Working Owners - owners who are actively engaged in the management of the enterprise but do not receive regular pay; 2) Unpaid Workers - persons working without pay and work for at least 1/3 of the working time normal to the enterprise; and 3) Paid Officials and Workers - include full-time/part-time workers; employees on paid leaves (e.g., sick/vacation/maternity/holiday/study leave); and employees working away from the establishment but paid by and under the control of the firm. Excluded are workers hired through contractor/agency.

Literal question
