Overview

ABSTRACT

The 2017 APIS is the twelfth in a series of poverty indicators surveys conducted nationwide since 1998. The survey gathers data that can be used to generate income and non-income based poverty indicators to assess and monitor the poverty situation in the country. This also includes questions about access to drinking water, sanitation and hygiene.

The APIS is designed to provide estimates for income and non-income indicators related to poverty. It gathers data on the socio-economic profile of families and other information that are related to their living conditions. Specifically, it generates information on indicators that are correlated with poverty in order to:

Determine family income; Determine family expenditure pattern; Determine the percent distribution of families in relation to the following indicators: ownership or owner-like possession of house and lot and the types of the materials of the roofs and walls of their housing units, and presence of electricity; type of toilet and handwashing facility they use in their homes, main source of water supply, and source of drinking water; ownership of household conveniences; children 6-11 years old enrolled in Grade 1 to Grade 6; children 12-15 years old enrolled in Junior High School (Grade 7 to Grade 10); with members 18 years old and over who are employed and with working children 5-17 years old; who availed of loan and its sources with at least one member who experienced hunger in the past three months

UNITS OF ANALYSIS

Household, Families

Scope

NOTES

The scope of the 2017 APIS includes:

- Geographic Identification and Other Family Information - region, province, municipality, barangay, address, result of visit and code, names of household head and respondent and the certification portion.
- Demographic Characteristics - obtain information of all family members such as name of family head, relationship to the head, sex, age and marital status.
- Schooling Status and Highest Grade Completed - determines whether a family member aged 3 to 24 years is currently attending formal school, and if so, the grade or year the member is currently attending. If not attending, then the reason for not attending school is asked. It determines if the family members 3 to 5 years old are attending/have attended early education or learning system in order to assess their 'school readiness'. It also determines the educational attainment of the family members 5 years old and over.

- **Economic Characteristics** - obtain information on the job or business of each family member 5 years old and over have during the past six months. It also includes questions on occupation and business the family member engaged in.
- **Housing, Water, Sanitation and Hygiene** - obtains information about the family's housing characteristics and conveniences/amenities owned by the family. The main source of water supply and kind of toilet facility they used.
- **Other Relevant Information** - to determine whether or not the family makes use of any form of credit in financing the family's needs. It also determines the source of loan. Also obtains information if a family member experienced hunger because he or she did not have food to eat.
- **Social Protection** - obtains information about programs that seek to reduce poverty and vulnerability to risks and enhance the social status and rights of the marginalized by promoting and protecting their livelihood and employment, protecting them against hazards and sudden interruptions or loss of income, and improving their capacity to manage risks.
- **Access to Government Services**- aimed to further enhance the established empirical baseline on the extent or pervasiveness of corruption in the country.
- **Family Expenditures** - determines the expenses made by the family purely from family members' personal consumption.
- **Salaries and Wages** - obtain information about the occupation of the family member 10 years old and over in the past six months.
- **Net Share of Crops, Fruits and Vegetables Produced, Aquaculture Products Harvested or Livestock and Poultry Raised by Other Households** - this is the net share from crops, fruits and vegetables produced, aquaculture products harvested or livestock and poultry raised by other family even without a landlord-tenant relationship.
- **Family Sustenance Activities (FSA)** - includes activities in the production of goods mainly for home consumption only and if there was a disposal, consumed and/or a small proportion was sold, given away, etc. during the reference period.
- **Other Sources of Income** - obtains information on other sources of income not derived from work.
- **Entrepreneurial Activities** -are activities that determine if any member of the family is engaged as operator or self-employed in any agricultural or non-agricultural family-operated activities. If engaged, this section asks for the total net income, value consumed and value given away as gifts of the products derived/produced from such activity.

Sampling

Sampling Procedure

Of the 10,478 eligible sample households for the APIS 2017, 10,159 were successfully interviewed. This translated to a response rate of 97 percent at the national level. The response rate is the ratio of the total households who were completely interviewed to the total eligible households. Eligible households consisted of households who were completely interviewed, refused to be interviewed, temporarily away, not at home or on vacation, and those located in critical or flooded areas during the survey period.

Response Rate

Of the 10,478 eligible sample households for the APIS 2017, 10,159 households were successfully interviewed. This translated to a response rate of 97 percent at the national level.

Data Collection Notes

Three levels of training were conducted for the 2017 APIS. The Task Force Training (First Level) was conducted for five days from 19 to 23 June 2017. Simultaneous to this training (but a day longer, 19 to 24 June 2017) is the training for the Water Quality Testing Module. The Second Level Training was conducted for 5 days from 24 to 28 June 2017. Meanwhile, the Third Level Training was conducted for six days from 26 June to 01 July 2017. The topics in this training include the concepts and definitions used in the survey, the procedures on how to properly carry out the interview and ask questions, and the procedures on how to fill out questionnaires. The importance of probing and checking the consistency of answers given by the respondents will be emphasized. There will be a mock interview during the training as a practical exercise to demonstrate how to ask questions and properly accomplish the questionnaires.

Supervision

The Regional Directors (RDs), Provincial Statistics Officers (PSOs), Statistical Operations and Coordination Division (SOCD), and Civil Registration and Administrative Support Division (CRASD) Chiefs shall supervise during the field operation. The RDs, PSOs, and SOCD/CRASD Chiefs are provided with seven man-days each for supervision inclusive of travel time. The Regional Focal Person (RFP) for the LFS July 2017 and APIS 2017 will have 10 man-days inclusive of travel time. He/She is expected to supervise during the first two weeks of data collection in order that he/she is able to immediately correct any error, and provide solutions to problems encountered by interviewers.

The RD, PSO, SOCD/CRASD Chiefs and the RFP will coordinate with each other in planning their field supervision so that they will not supervise the same sample Enumeration Areas (EAs). While in the sample areas, the RDs, PSOs, SOCD/CRASD Chiefs, and the RFP will carry out the following:

1. Observation of interviews to ensure that these are properly done;
2. Scrutiny of accomplished questionnaires to ascertain completeness and consistency of entries; and
3. Discussion with the interviewer of the errors committed during the interview and in filling out the questionnaire, and corrections to be made.

The Provincial Focal Person (PFP) will closely supervise the SRs throughout the duration of the survey. He/she will keep the PSO informed of the progress of the fieldwork. He/she will plan an efficient schedule of fieldwork such that he/she is able to observe the conduct of interview of all interveiwers are immediately corrected; hence errors will not be repeated in succeeding interviews. As PFP, he/she should see to it that the necessary preparation before the fieldwork is done and that expected tasks during the and after the fieldwork are properly carried out.
