

SUMMARY OF RESULTS

PRIVATE BUILDING CONSTRUCTION STATISTICS FOR THE YEAR 2008

Introduction

The final data series on construction statistics from approved building permits for the year 2008 is presented in this Special Release.

The final data set provides updates to the 2008 Quarterly Special Releases on construction statistics. The sources of updates are additional approved building permits collected after cut-off dates because of data collection constraints. These additional documents were not yet available for inclusion in the tabulation of data on designated target dates.

The completeness of the number of building permits collected relies on the applications filed and approved by the Local Building Officials (LBOs) in all cities and municipalities nationwide. Building constructions without approved building permits are not included in the statistics presented in this report.
