## Overview

### Identification

ID NUMBER  
PHL-NSO-APIS-1999-v01

### Version

VERSION DESCRIPTION  
Version 1, Final data, for public use.

PRODUCTION DATE  
1999-09

### Overview

ABSTRACT  
Organization and Objectives of the Survey

The 1999 Annual Poverty Indicators Survey (APIS) is a nationwide survey designed to provide access and impact indicators that can be used as inputs to the development of an integrated poverty indicator and monitoring system. It was conducted by the National Statistics Office (NSO) as a rider to its October 1999 Labor Force Survey (LFS).

Poverty statistics are presently based on the Family Income and Expenditures Survey (FIES) which is being conducted on a nationwide basis by the NSO every three years since 1985. FIES obtain data on the income and expenditures of families for one whole year. Other than poverty incidence, FIES also gives the distribution of families by income class, income decile distribution, sources of income, spending pattern by income class and poverty related indicators like housing characteristics. However, during periods when FIES is not conducted, there are no available statistics to use in assessing and monitoring poverty. Hence, the APIS is conducted.

KIND OF DATA  
Sample survey data [ssd]

UNITS OF ANALYSIS  
The study describes the following unit of analysis: Individuals and household.

### Scope

NOTES  
The scope of the Annual Poverty Indicators Survey includes:

HOUSEHOLD CHARACTERISTICS: Housing, water and sanitation, credit information, other relevant information, family sustenance activities, net share of crops, fruits and vegetables produced or livestock and poultry raised by other households, entrepreneurial activities, other sources of income, other receipts, family expenditures and savings, changes in welfare

MEMBER CHARACTERISTICS: demographic characteristics, health status, schooling status, economic characteristics, family planning and maternal health

#### TOPICS

Topic	Vocabulary	URI
-------	------------	-----

Topic	Vocabulary	URI
consumption/consumer behaviour [1.1]	CESSDA	<a href="http://www.nesstar.org/rdf/common">http://www.nesstar.org/rdf/common</a>
economic conditions and indicators [1.2]	CESSDA	<a href="http://www.nesstar.org/rdf/common">http://www.nesstar.org/rdf/common</a>
income, property and investment/saving [1.5]	CESSDA	<a href="http://www.nesstar.org/rdf/common">http://www.nesstar.org/rdf/common</a>
housing [10.1]	CESSDA	<a href="http://www.nesstar.org/rdf/common">http://www.nesstar.org/rdf/common</a>

**KEYWORDS**

housing and sanitation, credit information, family sustenance, net share of crops, entrepreneurial activities, other sources of income, other receipts, family income, family expenditures, changes in welfare

## Coverage

**GEOGRAPHIC COVERAGE**

The APIS covered all 82 provinces of the country including all cities and municipalities in Metro Manila. The sample included 3,416 sample enumeration areas/barangays with approximately 41,000 sample families.

**UNIVERSE**

The survey involved the interview of a national sample of about 41,000 sample households deemed to sufficient to provide reliable estimates of income and expenditure at the national and regional level.

# Sampling

## Sampling Procedure

---

The sample 3,416 barangays were selected systematically with probability proportional to size from the list of barangays that were implicitly stratified. The preliminary count of households based on the results of the 1995 Census of Population (POPCEN) was used. The selection of sample EAs for the second stage was also done systematically with probability proportional to size. The Enumeration Areas (EAs) are those that were formed during the 1995 POPCEN. An EA is a physical delineated portion of the barangay. For barangays that were not divided into EAs, the barangay was treated as an EA.

The selection of sample households for the third stage was done systematically from the 1995 POPCEN List of Households. The 1999 APIS used the expanded sample that has a national sample of about 41,000 sample households.

## Response Rate

---

Response Rate Out of 40,992 sample households, 37,454 were successfully interviewed using Annual Poverty Indicators Survey (APIS) Form 1. This translates to a response rate of 91.4%. Those who were not interviewed either refused to be interviewed or were not available during the enumeration.

## Weighting

---

### Calculation of Final Weights

The basic weight for the sample households in the January 1998 Labor Force Survey (LFS) can be expressed as an inverse of the probability of selection.

Since the sample households for the January 1998 LFS were selected directly from the 1995 Census of Population (POPCEN) frame, the basic weight is the same for all households within the stratum (that is, the sample is self weighting within the stratum). However, after the basic weights is adjusted for non-response, the weights may vary slightly by sample EA within stratum.

The basic weights were adjusted to take into account the sample EAs which were not enumerated, as well as the household non-interviews, followed by an adjustment based on the population projections for the domain. The weight adjustment was carried out in three stages for the LFS data.

#### 1. Weight adjustment factor for sample EAs which were not enumerated

The first stage weight adjustment was carried out at the stratum level (domain city, other urban or rural, within province). This adjustment factor was based on the number of sample EAs selected in the stratum divided by the number of sample EAs actually enumerated.

#### 2. Weight adjustment factor for non-interview households

The second stage weight adjustment factor for non-interview households was carried out at the level of the sample EA.

#### 3. Weight adjustment factor based on population projection.

In order to adjust the survey estimates of total population for each domain to reflect changes in the population overtime, a final weight adjustment factor was applied at the domain level, based on the best population projections for the corresponding reference period.

# Questionnaires

## Overview

---

Refer to the attached 1998 Annual Poverty Indicators Survey (APIS) questionnaire in pdf file ([External Resources](#))

## Data Collection

### Data Collection Dates

Start	End	Cycle
1998-10-19	1998-11-15	N/A

### Time Periods

Start	End	Cycle
1998-10-19	1998-11-15	N/A

### Data Collection Mode

Face-to-face [f2f]

### Data Collection Notes

There will be three levels of training conducted. The first level training was conducted in National Statistics Office (NSO) Central Office participated by selected central office personnel and the regional statisticians, trained as task force members and acted as trainers in the second level training and assisted in the conduct of the third level training for selected provinces.

The second level training was conducted at the NSO regional offices attended by the Regional Directors (RDs), Provincial Statistics Officer (PSOs), and their assistants. The task force members acted as trainer in this level.

The third level training was conducted at the NSO provincial offices participated by the Statistical Coordination Officers (SCOs) and hired Statistical Researchers (SRs) of each provinces involved in the operation. The participants in this training were acted as interviewer or enumerator.

### Questionnaires

Refer to the attached 1998 Annual Poverty Indicators Survey (APIS) questionnaire in pdf file (External Resources)

### Data Collectors

Name	Abbreviation	Affiliation
National Statistics Office	NSO	

### Supervision

The Regional Directors (RDs), Provincial Statistical Officers (PSOs) and their assistants are provided funds for supervision. It is expected that strict supervision should always be exercised in the conduct of the survey.

During supervision, the following should be done:

1. Observe how the interview is being conducted. Errors noted should be pointed out to the ENs to avoid the same mistakes in succeeding interviews.
2. Scrutinize the accomplished questionnaires for correctness, completeness and consistency of entries and return the problem questionnaires to the ENs for verification of the incorrect entries.
3. Conduct a random re-interview of households/respondents to ensure that the ENs really visited and interviewed the

sample households and eligible respondents.

4. Help solve problems encountered by enumerators such as refusals, callbacks and others.
5. Ensure that all the eligible respondents are interviewed.
6. Ensure that the expected outputs of the ENs are met.
7. Ensure that the ENs who were trained are the ones conducting the interview.
8. Collect the ENs accomplishment reports.
9. Be available if the ENs need assistance in relation to the conduct of the surveys.
10. Fill-up the Supervisor's report form that shall be submitted to the Regional Office for their use and reference.

# Data Processing

## Data Editing

---

Data processing involves two stages: manual processing and machine processing. Manual processing refers to the manual editing and coding of questionnaires. This is done prior to machine processing which entails the code validation, consistency checks as well as tabulation.

For purposes of operational convenience, field editing is usually done. The interviewer are required to review the entries at the end of interview. Blank items which are applicable to the respondents are verified and filled-out. Before being transmitted to the central office, all questionnaires are edited in the field offices.

Coding, which is the transformation from the questionnaire to machine readable form, is likewise done in the field offices.

Machine processing involves all operations that are done with the use of computer and/or its accessories, that is from data encoding encoding to tabulation. Coded data are usually in such media as tapes and diskettes.

Machine editing is preferred to ensure correctness of encoded information. Except for completeness check and verification of geographic identification which are the responsibility of the subject matter division, some correction of entries are done mechanically.

Preliminary and final tabulations are done at the Central Office.

## Data Appraisal

### Estimates of Sampling Error

As in all surveys, two types of non-response were encountered in the 1999 APIS. Interview non-response and item non-response refers to a sample household that could not be interviewed.

Item non-response, or the failure to obtain responses to particular survey items, resulted from factors such as respondents being unaware of the answer to a particular question, unwilling to provide the requested information or enumerators (EN's) omission of questions during the interview. Deterministic imputation was done to address item non-response. The imputation is a process in which proper entry for a particular missing item was deduced from other other items of the questionnaire where the non-response item was observed. Notes and remarks indicated in the questionnaire were likewise used as basis for imputation.

V18	G01_BLDG_TYPE	Hhld House, type of building/house	discrete	numeric	What type of building/house does the family reside?
V19	G02_ROOF_TYPE	Hhld House, type of roof	discrete	numeric	What type of construction materials is the roof made of?
V20	G03_WALL_TYPE	Hhld House, type of wall	discrete	numeric	What type of construction materials is the outer wall made of?
V21	G04A_TENURE	Hhld House, tenure status	discrete	numeric	What is the tenure status of the housing unit and lot occupied by your family? How much is the rent/imputed rent per month?

ID	Name	Label	Type	Format	Question
V22	G04A1_RENT	Hhld House, imputed/actual rent per month	contin	numeric	
V23	G04A2_RENT	Hhld House, imputed/actual lot rent	contin	numeric	
V24	G04B_FLR_AREA	Hhld House, floor area	contin	numeric	What is the floor area of the housing unit?
V25	G04C_OTH_HU	Hhld other housing unit	discrete	numeric	Do you own any other housing unit elsewhere which you also use as residence?
V26	G04C1_RENT	Hhld other housing unit, imputed rent	contin	numeric	
V27	G04D_GOVT_HSG	Hhld, has avail the housing program of government/financing	discrete	numeric	Did you avail your house and/or lot thru the assistance of the government housing or financing program?
V28	G04E_OWN_AGRI	Hhld, owned agricultural land?	discrete	numeric	Do you own any land, which you use for purposes other than residence?
V29	G04F_CARP	Hhld, avail of CARP land distribution program	discrete	numeric	If used for agricultural purpose, did you acquire this agricultural land under the CARP land-distribution program?
V30	G05_ELECTRICITY	Hhld, with electricity	discrete	numeric	Is there any electricity in the building/house?
V31	G06A_RADIO	Hhld, number of radio set	discrete	numeric	How many of each of the following items does the family own?
V32	G06B_TV	Hhld, number of television set	discrete	numeric	How many of each of the following items does the family own?
V33	G06C_REF	Hhld, number of refrigerator	discrete	numeric	How many of each of the following items does the family own?
V34	G06D_SALA	Hhld, number of sala set	discrete	numeric	How many of each of the following items does the family own?
V35	G06E_DINING	Hhld, number of dining set	discrete	numeric	How many of each of the following items does the family own?
V36	G06F_CAR	Hhld, number of vehicles	discrete	numeric	How many of each of the following items does the family own?
V37	G06G_WMACHINE	Hhld, number of washing machine	discrete	numeric	How many of each of the following items does the family own?
V38	G06H_STOVE	Hhld, number of stove	discrete	numeric	How many of each of the following items does the family own?
V39	G06I_PHONE	Hhld, number of telephone set	discrete	numeric	How many of each of the following items does the family own?
V40	H01_WATER_SRC	Hhld, main source of water wupply	discrete	numeric	What is the family's main source of water supply?

ID	Name	Label	Type	Format	Question
V41	H01A_DISTANCE	Hhld, distance of water source	contin	numeric	IF THE ANSWER IN H1 IS ANY OF THE CODES 1 TO 6, How far is this water source from your house?
V42	H02_TOILET	Hhld, kind of toilet facility	discrete	numeric	What kind of toilet facility does the family has in the house?
V43	I01_FSA	Hhld, produce goods for own consumption	discrete	numeric	
V44	I02A_CROP	Hhld, engaged in crop farming and gardening	discrete	numeric	
V45	I02B_LIVESTOCK	Hhld, engaged in livestock aand poultry raising	discrete	numeric	
V46	I02C_FISHING	Hhld, engaged in fishing activity	discrete	numeric	
V47	I02D_FORESTRY	Hhld, engaged in forestry and hunting	discrete	numeric	
V48	I02E_WHOLESALE	Hhld, engaged in wholesale and retail business	discrete	numeric	
V49	I02F_MFG	Hhld, engaged in manufacturing business	discrete	numeric	
V50	I02G_COMMUNITY	Hhld, engaged in community, social and recreational services	discrete	numeric	
V51	I02H_TRANSPORT	Hhld, engaged in transport, storage and communication servic	discrete	numeric	
V52	I02I_MINING	Hhld, engaged in mining activities	discrete	numeric	
V53	I02J_CONSTRUCT	Hhld, engaged in construction activities	discrete	numeric	
V54	I02K_OTHER	Hhld, engaged in entrepreneurial activities, others	discrete	numeric	
V55	J01_CREDIT	Hhld, avail of credit to finance business?	discrete	numeric	During the past six months, have you or any of your family avail of any credit to finance your business or entrepreneurial activity?
V56	J021_RELATIVE	Hhld, source of loan, relatives/neighbors/friends	discrete	numeric	If YES in J1, what was/were your source(s) of loan?
V57	J022_EMPLOYER	Hhld, source of loan, employer/landlord	discrete	numeric	
V58	J023_PAWNSHOP	Hhld, source of loan, private moneylender/pawnshop	discrete	numeric	
V59	J024_P_BANK	Hhld, source of loan, private bank	discrete	numeric	
V60	J025_G_BANK	Hhld, source of loan, government bank	discrete	numeric	
V61	J026_GSIS_SSS	Hhld, source of loan, GSIS/SSS	discrete	numeric	
V62	J027_COOP	Hhld, source of loan, cooperatives	discrete	numeric	
V63	J028_NGO	Hhld, source of loan, NGOs	discrete	numeric	
V64	J029_OTHER	Hhld, source of loan, others	discrete	numeric	

ID	Name	Label	Type	Format	Question
V65	J031_SRCE_INC	Hhld, did not avail because they have other source of income	discrete	numeric	If NO in E1, why did you not avail of any loan to finance the entrepreneurial activity?
V66	J032_BURDEN	Hhld, did not avail due to burdensome requirements	discrete	numeric	If NO in E1, why did you not avail of any loan to finance the entrepreneurial activity?
V67	J033_UNAWARE	Hhld, did not avail because they are not aware of source	discrete	numeric	If NO in E1, why did you not avail of any loan to finance the entrepreneurial activity?
V68	J034_NO_COLA	Hhld, did not avail because they have no collateral to offer	discrete	numeric	If NO in E1, why did you not avail of any loan to finance the entrepreneurial activity?
V69	J035_HIGH_RATE	Hhld, did not avail because of high interest rate	discrete	numeric	If NO in E1, why did you not avail of any loan to finance the entrepreneurial activity?
V70	J036_OTHER	Hhld, did not avail because of other reasons	discrete	numeric	If NO in E1, why did you not avail of any loan to finance the entrepreneurial activity?
V71	K01_SCHOLAR	Hhld, received educational/scholarship assistance for tertia	discrete	numeric	Have you or any of your family received any education/scholarship assistance for tertiary educational program?
V72	K02_ORG	Hhld, member is a member of NGO	discrete	numeric	Are you or anyone in the family a member of the people's organization and/or non-government organization?
V73	K03_COOP	Hhld, member is a member of a cooperative	discrete	numeric	Are you or anyone in the family a member of any cooperative such as credit cooperative, consumer cooperative, producer cooperative, marketing cooperative, etc.?
V74	K04_AGRI_EXT	Hhld, received agricultural extension services	discrete	numeric	If YES in any of the questions in I2(a) to I2(c), did you receive any agricultural extension services during the past six months?
V75	LFSA	Produce goods mainly for home consumption for the past 6 mon	discrete	numeric	During the PAST SIX MONTHS, did you or any member of your family produce goods mainly for home consumption?
V76	L01NR_95010	Net Receipts, fishing, gathering shells, snail, seaweeds, co	contin	numeric	
V77	L01VC_9501A	Value consumed, fishing, gathering shells, snail, seaweeds,	contin	numeric	
V78	L02NR_95050	Net Receipts, logging, gathering forest products like firewo	contin	numeric	
V79	L02VC_95050	Value consumed, logging, gathering forest products like fire	contin	numeric	
V80	L03NR_95060	Net Receipts, hunting and trapping	contin	numeric	
V81	L03VC_95060	Value consumed, hunting and trapping	contin	numeric	

ID	Name	Label	Type	Format	Question
V82	L04NR_95080	Net Receipts, farming and gardening (cereals, roots & tubers	contin	numeric

## Region (REG)

### File: 1999APISH

#### Overview

Type: Discrete  
Format: numeric  
Width: 2  
Decimals: 0  
Range: 1-16

Valid cases: 0  
Invalid: 0

#### Description

Region - a subnational administrative unit comprising of several provinces having more or less homogeneous characteristics, such as ethnic origin of inhabitants, dialect spoken, agricultural produce and others.

## Province (PRV)

### File: 1999APISH

#### Overview

Type: Continuous  
Format: numeric  
Width: 2  
Decimals: 0  
Range: 1-98

Valid cases: 0  
Invalid: 0

#### Description

Province- the largest unit in the political structure of the Philippines. It consists, in varying numbers, of municipalities, and in some cases, of component cities. Its functions and duties in relation to its component cities and municipalities are generally coordinative and supervisory.

## Urban/Rural (URB)

### File: 1999APISH

#### Overview

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 1-2

Valid cases: 0  
Invalid: 0

#### Description

Urban-Rural Areas

The following guidelines used in the 1980 Census of Population and Housing (CPH) are adopted in classifying urban areas:

1. In their entirety, all cities and municipalities having a population of at least 1,000 persons per square kilometer.
2. Poblaciones or central district of municipalities and cities which have a population density of at least 500 persons per square kilometer.
3. Poblaciones or central districts not included in (a) and (b) regardless of the population size, which have the following:
  - a) street pattern, i.e networks of streets in either parallel or right angle orientation.
  - b) at least six establishments (commercial, manufacturing, recreational, and/or personal services at least once a month)
  - c) At least three of the following:
    1. A town hall, church or chapel with religious services at least once a month.
    2. A public plaza or cemetery.
    3. A public plaza or building where trading activities are carried on at least once a month.
    4. A public building like school, hospital, puericulture and health center or library.
  - d) Barangays having at least 1,000 inhabitants meeting the conditions set forth in (c) above, and where the occupation of the inhabitants is predominantly non-farming or non-fishing

All areas not falling under any of the above classifications are considered rural.

## Household Control Number (HCN)

File: 1999APISH

### Overview

Type: Continuous  
Format: numeric  
Width: 4  
Decimals: 0  
Range: 1-6372

Valid cases: 0  
Invalid: 0

### Description

The Household Control Number (HCN) is a unique four-digit sequential number assigned to every household listed in the barangay/Enumeration Area.

## Domain (DOMAIN)

File: 1999APISH

### Overview

Type: Continuous  
Format: numeric  
Width: 3  
Decimals: 0  
Range: 1-148

Valid cases: 0  
Invalid: 0

### Description

A domain is referred to as subdivision of the country in which estimates with adequate level of precision is generated.

## Family Size (FSIZE)

File: 1999APISH

### Overview

Type: Discrete  
Format: numeric  
Width: 2  
Decimals: 0  
Range: 1-23

Valid cases: 0  
Invalid: 0

### Description

This refers to the total number of family members enumerated. Included as family members are those relationship to the household head is spouse, son, daughter, father, mother, son-in-law, daughter-in-law, sister, brother, granddaughter and grandson or other relative.

## Raising Factor (RFACT)

File: 1999APISH

### Overview

Type: Continuous  
Format: numeric  
Width: 14  
Decimals: 4  
Range: 12.9239-4060.1828

Valid cases: 0  
Invalid: 0

## National Income Decile (NATDC)

File: 1999APISH

## National Income Decile (NATDC)

File: 1999APISH

### Overview

Type: Discrete  
Format: numeric  
Width: 2  
Decimals: 0  
Range: 1-10

Valid cases: 0  
Invalid: 0

### Description

National income decile is obtained by ranking the weighted total family income of all sample families in the country from lowest to highest. Then these are grouped into tens. The first tenth, meaning those with the lowest income, is called the first decile; the second tenth, second decile and so on.

## Regional Income Decile (REGDC)

File: 1999APISH

### Overview

Type: Discrete  
Format: numeric  
Width: 2  
Decimals: 0  
Range: 1-10

Valid cases: 0  
Invalid: 0

### Description

Regional income decile is obtained by ranking the weighted total family income of all sample families in a given region from lowest to highest. Then these are grouped into tens. The first tenth, meaning those with the lowest income, is called the first decile; the second tenth, second decile and so on.

## Hhld, Income from Entrepreneurial Activities, Total (EAINC)

File: 1999APISH

### Overview

Type: Continuous  
Format: numeric  
Width: 8  
Decimals: 0  
Range: 0-3962212

Valid cases: 0 (0)  
Invalid: 0 (0)

### Description

An entrepreneurial activity or a family-operated activity is any economic activity, business or enterprise whether in agricultural or in non-agricultural enterprises, engaged in by any member of the family as an operator or self-employed.

Included, as family-operated activities are those which are operated as single proprietorship or loose partnership (without formal organization). Thus partnerships, corporations, associations, etc., which are formally organized and registered with the Securities and Exchange Commission (SEC) are excluded.

A lawyer, dentist, physician, accountant, midwife, or any person in private practice of his profession with or without a regular helper is considered operating an enterprise as a business. A fisherman, farmer, carpenter, watch repairman, etc., working on his own account is also operating as an enterprise.

## Hhld, Income from Salaries and Wages, Total (SALWAG)

File: 1999APISH

### Overview

## Hhld, Income from Salaries and Wages, Total (SALWAG)

File: 1999APISH

Type: Continuous  
Format: numeric  
Width: 8  
Decimals: 0  
Range: 0-2400000

Valid cases: 0 (0)  
Invalid: 0 (0)

### Description

It includes all forms of compensation whether in cash or in kind received by family members as regular or occasional/seasonal workers in agricultural and non-agricultural industries. This additional information may provide data to explain the difference in the level of compensation received by salary and wage earners.

## Hhld, Income, Total (TOINC)

File: 1999APISH

### Overview

Type: Continuous  
Format: numeric  
Width: 9  
Decimals: 0  
Range: 0-4112212

Valid cases: 0 (0)  
Invalid: 0 (0)

### Description

In general, total family income includes primary income (earnings) and receipts from other sources received by all family members during the reference period as participants in any economic activity (either as laborer, proprietor, capitalist or entrepreneur), or as recipients of transfers, pensions, grants, etc.

Primary income includes salaries and wages, commissions, tips, bonuses, family and clothing allowances, transportation and representation allowances, honorarium, and other forms of compensation and net receipts/profits derived from the operation of family-operated enterprises/activities and the practice of a profession or trade.

Receipts from other sources are receipts, gifts and assistance from abroad and from domestic source, dividends from investments, imputed rental values of owner-occupied dwelling units, interests, royalties, rentals including landowner's share of agricultural products and pensions.

Also included as part of family income are receipts from family sustenance activities, which are not considered as family-operated enterprises.

## Hhld, Expenditure, Total (TOEXP)

File: 1999APISH

### Overview

Type: Continuous  
Format: numeric  
Width: 9  
Decimals: 0  
Range: 1364-2199064

Valid cases: 0 (0)  
Invalid: 0 (0)

### Description

Family expenditures refer to the expenses or disbursements made by the family purely for personal consumption. Therefore, it excludes all expenses in relation to farm or business operations, investment ventures, purchase of real property and other disbursements, which do not involve personal consumption.

## Hhld, Nonfood (NONFOOD)

File: 1999APISH

### Overview

## Hhld, Nonfood (NONFOOD)

File: 1999APISH

Type: Continuous  
 Format: numeric  
 Width: 9  
 Decimals: 0  
 Range: 240-2092752

 Invalid: 0 (0)

## Hhld, Food (FOOD)

File: 1999APISH

**Overview**

Type: Continuous  
 Format: numeric  
 Width: 9  
 Decimals: 0  
 Range: 0-733200

Valid cases: 0 (0)  
 Invalid: 0 (0)

## Hhld, Other Expenditure/Disbursement (OTHERDISB)

File: 1999APISH

**Overview**

Type: Continuous  
 Format: numeric  
 Width: 9  
 Decimals: 0  
 Range: 0-2500000

Valid cases: 0 (0)  
 Invalid: 0 (0)

**Description**

Other disbursements refer to non-family expenditures, which may give an indication of savings on the part of the family.

## Hhld, Other receipts (OTHERRCPT)

File: 1999APISH

**Overview**

Type: Continuous  
 Format: numeric  
 Width: 9  
 Decimals: 0  
 Range: 0-5120000

Valid cases: 0 (0)  
 Invalid: 0 (0)

**Description**

Refers to non-income receipts and this includes the following:

1. Net Winnings from Gambling, Sweepstakes and Raffles
2. Profit from Sales of Stocks, Bonds, and 3. Back pay and Proceeds from Insurance
4. Inheritance
5. Sale of real and personal property
6. Loans from other families/business firms and government institutions
7. Payments received from loans granted to others
8. Withdrawals from Savings/Business Equity
9. Other receipts

## Hhld House, type of building/house (G01\_BLDG\_TYPE)

File: 1999APISH

## Hhld House, type of building/house (G01\_BLDG\_TYPE)

File: 1999APISH

**Overview**

Type: Discrete  
 Format: numeric  
 Width: 1  
 Decimals: 0  
 Range: 1-5

Valid cases: 0 (0)  
 Invalid: 0 (0)

**Description**

Type of housing unit occupied by the family.

**Literal question**

What type of building/house does the family reside?

**Interviewer instructions**

Be guided by the following definitions in identifying the type of building occupied by the family:

1 Single - a complete structure intended for one household

2 Duplex - a structure intended for two households, with complete facilities for each. It is divided vertically or horizontally into two separate housing units which are usually identical

3 Apartment/accessoria/condominium/townhouses - refer to descriptions stated below

Apartment - a structure usually of several entrances from internal hall or court. It differs from an accessoria in that an apartment has one common entrance from the outside

Accessoria - usually a one or two floor structure divided into three or more housing units, each unit having its own separate entrance from the outside. An accessoria is sometimes referred to as a row house

Condominium - usually a high rise building where the housing units are owned individually but the land and other areas and facilities are owned in common

4 Commercial/industrial/agricultural building/house - buildings intended for transacting business, for rendering professional services, for processing, assembling, fabricating or manufacturing operations, or for agricultural purposes and not intended for private habitation but used as a living quarter at the time of the survey

5 Other housing unit (e.g. cave, boat, etc.) - refers to all types of buildings/houses and natural structures not intended for private housing and/or human habitation nor located in permanent buildings but which are, nevertheless, used as living quarters at the time of the survey. Caves, other natural shelters and mobile housing units such as trailers, barges, etc., fall under this category.

Encircle the appropriate code and enter this code in the box provided.

## Hhld House, type of roof (G02\_ROOF\_TYPE)

File: 1999APISH

**Overview**

Type: Discrete  
 Format: numeric  
 Width: 1  
 Decimals: 0  
 Range: 1-6

Valid cases: 0 (0)  
 Invalid: 0 (0)

**Description**

Type of construction materials of the roof of the house.

**Literal question**

What type of construction materials is the roof made of?

**Interviewer instructions**

## Hhld House, type of roof (G02\_ROOF\_TYPE)

File: 1999APISH

Encircle the code which indicates the type of construction material the roof of the house is made of and enter it in the box provided. You need not ask this question anymore if you can classify the construction materials used in the house roof by observation. Strong materials include galvanized iron/aluminum, tile, concrete, brick, stone and asbestos. Cogon, nipa and anahaw are considered as light materials. Examples of salvaged/makeshift materials are scrap GI sheets, planks of wood or pieces of lawanit, dilapidated boxes, etc., which are usually salvaged from burned or condemned structure.

If, for example, the roof is made of a combination of three types of materials stated above, encircle the code for the most predominant materials used and enter in the box provided.

## Hhld House, type of wall (G03\_WALL\_TYPE)

File: 1999APISH

### Overview

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 1-6

Valid cases: 0 (0)  
Invalid: 0 (0)

### Description

Type of construction materials of the outer walls of the housing unit

### Literal question

What type of construction materials is the outer wall made of?

### Interviewer instructions

Use as a guide the instructions for Construction Materials of the Roof in selecting the type of construction materials of the outer walls.

## Hhld House, tenure status (G04A\_TENURE)

File: 1999APISH

### Overview

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 1-7

Valid cases: 0 (0)  
Invalid: 0 (0)

### Description

Tenure status of the housing unit and lot occupied by the family

### Literal question

What is the tenure status of the housing unit and lot occupied by your family? How much is the rent/imputed rent per month?

### Interviewer instructions

## Hhld House, tenure status (G04A\_TENURE)

### File: 1999APISH

Ask the question as worded, and encircle and enter in the box the appropriate code which indicates the tenure status of the housing unit and lot occupied by the family.

The tenure status to be recorded should be the present tenure of the housing unit at the time of visit.

Owner-like possession of house and lot means that the family may have an outstanding loan on the property such as mortgage or other real estate loan. It is also possible that the family owns or still paying installments for the house but the lot is leased on a long term basis.

Imputed rent refers to the amount the owner would charge to rent the housing unit (unfurnished) and/or lot monthly excluding the costs for utilities.

Do not confuse imputed rent with amortization payments. Note that imputed rent refers to the value of the house/lot based on its utility while amortization payments refer to the periodic payments made by the family on real property they acquire on installment basis.

Write the amount of rent or imputed rent in the space provided. Note that an encircled code for tenure of status in item Q4a will have a corresponding amount of rent or imputed rent.

If the answer in Q4a is either code 3 or 4, ask the respondent the rent or imputed rent of lot per month and enter the corresponding amount in the space provided.

## Hhld House, imputed/actual rent per month (G04A1\_RENT)

### File: 1999APISH

#### Overview

Type: Continuous  
Format: numeric  
Width: 8  
Decimals: 0  
Range: 0-840000

Valid cases: 0 (0)  
Invalid: 0 (0)

## Hhld House, imputed/actual lot rent (G04A2\_RENT)

### File: 1999APISH

#### Overview

Type: Continuous  
Format: numeric  
Width: 8  
Decimals: 0  
Range: 0-120000

Valid cases: 0 (0)  
Invalid: 0 (0)

## Hhld House, floor area (G04B\_FLR\_AREA)

### File: 1999APISH

#### Overview

Type: Continuous  
Format: numeric  
Width: 8  
Decimals: 0  
Range: 0-45000

Valid cases: 0 (0)  
Invalid: 0 (0)

#### Description

## Hhld House, floor area (G04B\_FLR\_AREA)

File: 1999APISH

Floor area refers to the space enclosed by the exterior walls of the housing unit. In case of several floors, get the area of each floor in square meters and add together to get the total floor area of the housing unit. In general, area is length multiplied by width

### Literal question

What is the floor area of the housing unit?

### Interviewer instructions

Write in the line provided the estimated floor area of the housing unit in square meters. Floor area refers to the space enclosed by the exterior walls of the housing unit. In case of several floors, get the area of each floor in square meters and add together to get the total floor area of the housing unit. In general, area is length multiplied by width.

In case the respondent cannot give at once the floor area of the housing unit, you may help him in approximation. There are many ways in approximating the total floor area. You may use any method, which is more convenient to you. You may use a meter stick, visual approximation (using your eyes only) or pace factor. In case the respondent does not know the floor area of the housing unit, you can approximate the floor area using any of the above-mentioned methods. Familiarize yourself with the length of a meter so that you can do visual approximation.

## Hhld other housing unit (G04C\_OTH\_HU)

File: 1999APISH

### Overview

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 1-2

Valid cases: 0 (0)  
Invalid: 0 (0)

### Description

This refers to vacation house(s) or rest house(s) owned by the family aside from their usual residence.

### Literal question

Do you own any other housing unit elsewhere which you also use as residence?

### Interviewer instructions

In addition to the house where they usually reside, ask the respondent whether his family owns any other housing unit elsewhere which they also use as residence. This refers to vacation house(s) or rest house(s) owned by the family aside from their usual residence. It also refers to a house in a city or in a poblacion owned and maintained by the family because it is near their place of work or school.

If the respondent answered YES, encircle code 1 and ask for the imputed rent per month. Write the amount in the line provided for it. If the response is NO, encircle code 2 and leave the line for imputed rent blank. Enter the appropriate code in the box provided.

If the family owns other housing unit(s) rented out to others, the answer to this question should be NO. For an answer of YES to be considered as acceptable, the other housing unit(s) should only be for residential use of the family.

However, if during the past six months, the other housing unit owned by the family was rented out to others for some months and for the remaining of the six months, was used as residence by the family, then enter here the imputed rental value multiplied by the number of months it was used as residence by the family, divided by six. The value of rental for some months should be reported as rentals received from non-agricultural lands, buildings, spaces and other properties in Section N, Other Sources of Income.

## Hhld other housing unit, imputed rent (G04C1\_RENT)

File: 1999APISH

### Overview

## Hhld other housing unit, imputed rent (G04C1\_RENT)

File: 1999APISH

Type: Continuous  
 Format: numeric  
 Width: 8  
 Decimals: 0  
 Range: 0-300000

Valid cases: 0 (0)  
 Invalid: 0 (0)

## Hhld, has avail the housing program of government/financing (G04D\_GOVT\_HSG)

File: 1999APISH

**Overview**

Type: Discrete  
 Format: numeric  
 Width: 1  
 Decimals: 0  
 Range: 0-2

Valid cases: 0 (0)  
 Invalid: 0 (0)

**Literal question**

Did you avail your house and/or lot thru the assistance of the government housing or financing program?

**Interviewer instructions**

Inquire from the respondent if he/she or any member of the family acquired the house and lot thru the assistance of the government housing program or thru financing program. If the answer is "YES" encircle Code 1; otherwise, encircle Code 2. Enter the appropriate code in the box provided.

## Hhld, owned agricultural land? (G04E\_OWN\_AGRI)

File: 1999APISH

**Overview**

Type: Discrete  
 Format: numeric  
 Width: 1  
 Decimals: 0  
 Range: 0-2

Valid cases: 0 (0)  
 Invalid: 0 (0)

**Literal question**

Do you own any land, which you use for purposes other than residence?

**Interviewer instructions**

Ask the respondent if his/her family owns agricultural land that is being used for purposes other than residence such as farmland, rice milling, etc. If the answer is YES, encircle Code "1"; otherwise, encircle Code "2". Enter the appropriate code in the box provided.

## Hhld, avail of CARP land distribution program (G04F\_CARP)

File: 1999APISH

**Overview**

Type: Discrete  
 Format: numeric  
 Width: 1  
 Decimals: 0  
 Range: 0-3

Valid cases: 0 (0)  
 Invalid: 0 (0)

**Literal question**

If used for agricultural purpose, did you acquire this agricultural land under the CARP land-distribution program?

**Interviewer instructions**

## Hhld, avail of CARP land distribution program (G04F\_CARP)

File: 1999APISH

If the answer in Q4e is YES, inquire from the respondent if the agricultural land was acquired under the Comprehensive Agrarian Reform Program. If the answer is YES, encircle Code "1"; otherwise, encircle Code "2". Enter the appropriate code in the box provided.

## Hhld, with electricity (G05\_ELECTRICITY)

File: 1999APISH

### Overview

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 1-2

Valid cases: 0 (0)  
Invalid: 0 (0)

### Literal question

Is there any electricity in the building/house?

### Interviewer instructions

A response of code 1 (Yes) means that the family uses electricity, which is either provided by national or community electric companies or cooperatives or generated by the household through the use of a generator. Code 2 means otherwise.

Based on the respondent's answer encircle the appropriate code and enter in the box provided.

## Hhld, number of radio set (G06A\_RADIO)

File: 1999APISH

### Overview

Type: Discrete  
Format: numeric  
Width: 2  
Decimals: 0  
Range: 0-11

Valid cases: 0 (0)  
Invalid: 0 (0)

### Description

Radio includes transistor radio, radiophone and tape cassette recorder.

### Literal question

How many of each of the following items does the family own?

### Interviewer instructions

This question asks for the household conveniences or appliances that the family owns. Ask for the quantity of each appliance. Enter the number in the boxes provided. Do not rely on what you see because some appliances may be inside the bedrooms. However, do not include appliances, which are out of order, or those, which are being rented. If no appliances reported, enter "00".

## Hhld, number of television set (G06B\_TV)

File: 1999APISH

### Overview

Type: Discrete  
Format: numeric  
Width: 2  
Decimals: 0  
Range: 0-10

Valid cases: 0 (0)  
Invalid: 0 (0)

### Description

Television set includes both black and white and colored TV set.

## Hhld, number of television set (G06B\_TV)

File: 1999APISH

**Literal question**

How many of each of the following items does the family own?

## Hhld, number of refrigerator (G06C\_REF)

File: 1999APISH

**Overview**

Type: Discrete  
 Format: numeric  
 Width: 2  
 Decimals: 0  
 Range: 0-6

Valid cases: 0 (0)  
 Invalid: 0 (0)

**Description**

Refrigerator/freezer includes a refrigerator-freezer combination unit which may have two exterior doors with separate refrigeration and freezing compartments (side by side or one above the other).

**Literal question**

How many of each of the following items does the family own?

## Hhld, number of sala set (G06D\_SALA)

File: 1999APISH

 Invalid: 0 (0)

**Description**

Gas Range is usually a stove with an oven.

**Literal question**

How many of each of the following items does the family own?

## Hhld, number of telephone set (G06I\_PHONE)

File: 1999APISH

**Overview**

Type: Discrete  
 Format: numeric  
 Width: 2  
 Decimals: 0  
 Range: 0-11

Valid cases: 0 (0)  
 Invalid: 0 (0)

**Description**

## Hhld, number of telephone set (G06I\_PHONE)

File: 1999APISH

Landline Telephone refers to telephone serviced by Philippine Long Distance Telephone, Globelines, Bayantel, Retelco, etc.,

Cellular Phone or also known as mobile phones such as Smart, Globe, Piltel, Extelcom, Sun Cellular, etc.

### Literal question

How many of each of the following items does the family own?

## Hhld, main source of water wupply (H01\_WATER\_SRC)

File: 1999APISH

### Overview

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 0-9

Valid cases: 0 (0)  
Invalid: 0 (0)

### Description

The different sources of Water Supply are as follows:

Own use, faucet, and community water system - the family gets its water supply from a faucet inside the house/yard directly connected to a water pipeline from the community water system. If the water supply is from a faucet, which is connected to a deep well and owned and used solely by the family, it should be reported as tubed/piped well, own use.

Shared, faucet, Community Water System - The family gets water supply from a faucet, for public use, or the faucet of another household, establishment, or office, which is connected to the community water system.

Own use, tubed/piped well - Water is taken from a tubed/piped well for private use of the family.

Shared, tubed/piped well - Water is taken from a tubed/piped well, which was constructed for public use or taken from a tubed/piped well of another household, establishment or office.

Dug well - The family gets its water supply from a dug well. The ordinary dug well and the improved type, which is provided with a protective device against contamination or pollution belongs to this type.

Spring, river, stream, etc. - The family gets its water supply from natural bodies of water, which has not been developed yet.

Rain - refers to water accumulated from rainfall.

Peddler - The family does not directly get its water supply from any of the sources mentioned above. This is the usual source of water supply of families in areas that do not have central water system and/or that have low water pressure.

### Literal question

What is the family's main source of water supply?

### Interviewer instructions

## Hhld, main source of water wupply (H01\_WATER\_SRC)

File: 1999APISH

Usually, residents of the same community share the same source of water supply. If a particular family reports a source, which is different from most of the others that you have interviewed in the same area, try to do some probing to ascertain whether or not the source is really different.

Determine which one of the following is the main source of water supply for the family:

- 1 Own used, faucet, community water system
- 2 Shared, faucet, community water system
- 3 Own use, tubed/piped well
- 4 Shared, tubed piped well
- 5 Dug well
- 6 Spring, river, stream, etc.
- 7 Rain
- 8 Peddler
- 9 Others (specify)

Encircle and enter in the box provided the appropriate code for the reported source of water supply. If there are more than one source, report the one which is being used mostly for the household needs such as drinking, washing clothes, etc. Take note that if the family uses water from the community water system and at the same time uses bottled water for drinking; the water from community water system will prevail.

## Hhld, distance of water source (H01A\_DISTANCE)

File: 1999APISH

### Overview

Type: Continuous  
Format: numeric  
Width: 8  
Decimals: 0  
Range: 0-16998

Valid cases: 0 (0)  
Invalid: 0 (0)

### Literal question

IF THE ANSWER IN H1 IS ANY OF THE CODES 1 TO 6, How far is this water source from your house?

### Interviewer instructions

This question aims to find out how convenient the family is in fetching water from the source. Ask whether the family's main source of water supply is within the household's premises or far from the house. Tact is needed to gather this information. Ask probing questions when necessary. Write in the line provided the distance in meters. If the family gets water from faucets inside the house, connected to a water pipe line from either a community water system or a well, then write '0' in the line provided.

## Hhld, kind of toilet facility (H02\_TOILET)

File: 1999APISH

### Overview

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 0-5

Valid cases: 0 (0)  
Invalid: 0 (0)

### Description

## Hhld, kind of toilet facility (H02\_TOILET)

File: 1999APISH

The different type of toilet are described below:

Water-sealed - all types of toilet, whether used exclusively by the household or shared with other households, where after water is flushed or poured into the bowl, a small amount of water is left in the bowl and seals the bottom of the bowl from the pipe leading to the sewer or septic tank. They may or may not have depositories other than a sewer or septic tank. However, if a water-sealed bowl is connected to a lake, river, stream or canal or down under, it is classified under (4) Others (pail system, etc.).

Closed Pit - This is the type of toilet, which is without a water-sealed bowl, and the depository is constructed usually of large circular tubes made of clay or concrete, a pit with concrete sides, or an ordinary pit or drum, covered on top and has a small opening. It may or may not have a box for seating or squatting over the opening.

Open pit - An open pit is a dug pit without any enclosures and usually without toilet bowls.

Other (Pail System, etc.) - Classify here a toilet system wherein human waste is accumulated in a pail to be picked up for disposal from time to time or any other kind of toilet not belonging to the preceding types.

None - Report this for a family having no toilet facility and usually resort to throwing human waste in wrapped paper or container.

### Literal question

What kind of toilet facility does the family has in the house?

### Interviewer instructions

This question is intended to determine the type of toilet the members of the family use and not necessarily what they have in their house because in some cases, these two may be different. There are instances, especially in rural areas, that a separate toilet is constructed in the backyard.

If there are two or more toilet facilities, consider the one which is more sanitary. Encircle and write the appropriate code in the box provided.

## Hhld, produce goods for own consumption (I01\_FSA)

File: 1999APISH

**Overview**

Type: Discrete  
 Format: numeric  
 Width: 1  
 Decimals: 0  
 Range: 0-2

Valid cases: 0 (0)  
 Invalid: 0 (0)

**Description**

Credit referred here are the loans that we availed of since the past six months by any member of the family in connection with the family's entrepreneurial activities such as farming, fishing, logging and hunting activities and other non-agricultural economic activities regardless of the amount of loan.

**Literal question**

During the past six months, have you or any of your family avail of any credit to finance your business or entrepreneurial activity?

**Interviewer instructions**

The purpose in asking question is to determine whether or not the family makes use of any form of credit in financing the family's entrepreneurial activities.

Loans that were borrowed for the reason that these are to be used for the aforementioned activities but were actually used for other purposes should be included. On the other hand, exclude loans borrowed and used purposely for personal needs of the family such as food, housing, education, clothing, etc.

Consider also loans borrowed within the reference period by a member of the family who at the time of the interview is no longer a member of the household. Example, a person who was able to avail of a loan for the family's economic activity got married and lived separately. In such a case, consider the loan availed of by the person although he no longer lives with the family at the time of interview.

Loans borrowed/approved but have not been released will likewise be excluded.

Encircle Code "1" if the family availed of a credit. Otherwise, encircle Code "2" and skip to question J3.

## Hhld, source of loan, relatives/neighbors/friends (J021\_RELATIVE)

### Description

People's organizations are primary organizations mostly of the people in the basic sector of society. Example are "Gabriela", Paco Vendor's Association, Samahang Maralita Para Sa Makatao At Makatarungang Paninirahan (SAMA-SAMA), etc.

Non-government organizations are private, nonprofit and voluntary organizations that were established primarily to work for socioeconomic, sociopolitical, or sociocultural development. An example of NGO are Kamalayan, PATAMADA (national

### Literal question

Are you or anyone in the family a member of the people's organization and/or non-government organization?

### Interviewer instructions

Ask the question to the respondent. Enter code "1" if the answer is Yes; otherwise, enter code "2".

## Hhld, member is a member of a cooperative (K03\_COOP) File: 1999APISH

### Overview

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 0-2

Valid cases: 0 (0)  
Invalid: 0 (0)

### Description

## Hhld, member is a member of a cooperative (K03\_COOP)

File: 1999APISH

Type of cooperatives are the following:

Credit Cooperative - one that promotes thrift among its members and create funds in order to grant loans for productive and provident purposes

Consumer Cooperative - one whose primary purpose is to procure and distribute commodities to members and non-members

Producers Cooperative - one that undertakes joint production, whether agricultural or industrial

Marketing Cooperative - engages in the supply of production inputs to members and markets their products

Service Cooperative - engages in medical, dental care, hospitalization, transportation, insurance, housing, labor, electric light and power, communication and other services

Multi-purpose Cooperative - combines two or more of the business activities of these different types of cooperatives

### Literal question

Are you or anyone in the family a member of any cooperative such as credit cooperative, consumer cooperative, producer cooperative, marketing cooperative, etc.?

### Interviewer instructions

Inquire whether anyone in the family is a member of any type of cooperatives and enter the response accordingly. This will measure the extent of membership in cooperatives.

Ask the question to the respondent. Enter code "1" if the answer is Yes; otherwise, enter code "2".

## Hhld, received agricultural extension services (K04\_AGRI\_EXT)

File: 1999APISH

### Overview

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 0-3

Valid cases: 0 (0)  
Invalid: 0 (0)

### Universe

YES in any of the questions in I2(a) to I2(c)

### Literal question

If YES in any of the questions in I2(a) to I2(c), did you receive any agricultural extension services during the past six months?

### Interviewer instructions

If the answer is YES in either question I2(a) to I2(c), ask the respondent if any member of the family received any agricultural extension services like technology application, livestock dispersal/breeding, distribution of seeds and marketing during the past six months from local government units (LGUs), Department of Agriculture (DA) and other government institutions, and non-government organizations.

Enter Code "1" if the answer is Yes and was received from a government or any institutions run by the government: enter Code "2" if Yes but granted by any private entities. Enter Code "3" if the family has not received any assistance.

## Produce goods mainly for home consumption for the past 6 mon (LFSA)

File: 1999APISH

### Overview

# Produce goods mainly for home consumption for the past 6 mon (LFSA)

File: 1999APISH

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 0-2

Valid cases: 0 (0)  
Invalid: 0 (0)

## Description

A family sustenance activity is also a gainful activity but unlike an entrepreneurial activity, the produce from the former is mainly for home consumption. Occasionally, sales are made when harvest/produce are more than enough for family consumption. Some examples of these activities are raising one or two fowls, raising a few eggplants, tomatoes and other vegetables, fruit trees scattered in residential lot, fishing or gathering shells for a day's meal.

## Literal question

During the PAST SIX MONTHS, did you or any member of your family produce goods mainly for home consumption?

## Interviewer instructions

Ascertain from the respondent if any family member produced goods mainly for home consumption. A family is considered engaged in family sustenance activities if there was a disposal (consumed and/or a small proportion was sold, given away, etc.) during the reference period. If the answer to the screening question is YES, encircle code "1", otherwise, encircle code "2" and proceed to Section M.

Inquire about the net receipts, which is the value of produce/receipts minus operating expenses, if any. In most cases, the value consumed will equal the net receipts, except when a part of the produce was sold/given away.

There are cases, however, when the net receipts may be less than the amount consumed. For example, a piglet was bought for P1,200 and raised to size worth P5,000. When the family butchered the pig for own consumption, only P3,800 should be entered under the net receipts (no cost in raising the pig) and P5,000 should be entered under value consumed. The cost of the pig was subtracted from its market value to derive net receipts.

The value to be reported under net receipts will include items sold and value given as gift, if any, and value consumed. Hence, in no case will the Net Receipts column be left blank whenever there is a report in the column for Value Consumed.

Include in this section value of fruits and vegetables picked, firewood gathered from another farm/backyard. However, do not include those item already reported in "received as gifts" in the expenditure part.

## Column 1 - Type of Activity

Written in this column are the different types of family sustenance activities that a family may engage in.

## Column 2 - Code

These are the corresponding codes of the type of activities enumerated in Column 1.

## Column 3 - Net Receipts

Inquire about the net receipts of the family sustenance activity(ies) of the sample family. The value to be reported under net receipts will include items sold and value consumed and given away as gifts.

## Column 4 - Value Consumed

Report in this column the value consumed by the sample family. Include in this section the value of fruits and vegetables harvested or firewood gathered from another farm/backyard. If the family has no other source of income except an activity that is conceptually classified as a family sustenance activity, then report the activity as entrepreneurial activity.

## Receive net share of crops, fruits and vegetables produced o (MNS) File: 1999APISH

### Overview

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 0-2

Valid cases: 0 (0)  
Invalid: 0 (0)

### Literal question

During the PAST SIX MONTHS, did you or any member of your family receive net share of crops, fruits and vegetables produced or livestock and poultry raised by other households?

### Interviewer instructions

## Receive net share of crops, fruits and vegetables produced o (MNS)

### File: 1999APISH

Inquire from the respondent if the family received a share of crops, fruits, vegetables, etc., harvested by its tenants or when a fixed rental or any amount out of the produce was received from tenants during the reference period. Encircle Code 1 if the answer to the screening question is 'YES' and fill up the rest of the section, otherwise encircle Code 2 and skip to Section N.

Fill up this section, if the sample family sold, consumed, gave away as gifts or payment, during the reference period, its share of livestock raised by other households, including rental of agricultural lands paid in the form of livestock and poultry, or its share of livestock or poultry products.

Include the share of the family from the proceeds of the sale of pig, cow, etc., which the family owned but raised by others, and disposed of during the reference period, although there was no landlord-tenant relationship between the sample family and the family who raised it.

#### Column 1 - Item

This column contains the name of crops, fruits, vegetables, livestock and poultry that were raised by other households but the net value of the agricultural products were shared with the sample family.

#### Column 2 - Code

These are the corresponding codes of the agricultural products listed in col. 1

#### Column 3 - Total Net Value of Share

Since only the net value of share will be recorded here, ask first the gross value of the total share received during the reference period by the sample family. Then deduct the family's contribution to the expenses incurred, such as seeds, fertilizer, pesticides, insecticides, irrigation fee, purchase price paid for the livestock or poultry raised by other households, etc. If the landlord who belongs to the sample family did not contribute anything to the cost of production, the net share should be equal to the gross share.

#### Column 4 - Sold for Cash

From the total net value of share, enter under this column; the cash proceeds from sale of crops, livestock, etc.

#### Column 5 - Value Consumed

For every item reported as share of the family, enter the value consumed out of the net share.

## Engaged in crop farming and gardening such as growing of pal (N1A)

### File: 1999APISH

#### Overview

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 0-1

Valid cases: 0 (0)  
Invalid: 0 (0)

#### Description

For purposes of this survey, the following are considered as operating a crop farm or garden:

Gardening in at least 100 sq. meters of solid patches (the plants not scattered all around) whether the produce is mainly for sale or for family consumption. Consider also as work for profit, gardening in less than 100 sq. meters if the produce is solely for sale.

Non-farm households cultivating at least 300 sq. meters of land devoted to temporary, annual or biennial crops or shrubs, or tending an orchard of at least the same area even though not much care is needed by plants, unlike gardening.

Growing ornamental plants and flowers, seedlings, black pepper (pimienta) or betel leaf for sale, even if the area may be less than 100 sq. meter

#### Literal question

During the PAST SIX MONTHS, did you or any member of your family engage in crop farming and gardening such as growing of palay, corn, roots and tubers, vegetables, fruits, nuts, etc.?

#### Interviewer instructions

If the answer to this screening question is 'YES', encircle code '1' and proceed to ask question (b). Otherwise, encircle code '2' and go to the next subsection.

## Harvest crops, fruits and vegetables during the past six months (N1B)

### File: 1999APISH

Valid cases: 0 (0)  
Invalid: 0 (0)

#### Literal question

During the PAST SIX MONTHS, did you or any member of your family harvest crops, fruits and vegetables?

#### Interviewer instructions

## Harvest crops, fruits and vegetables during the past six mon (N1B) File: 1999APISH

If the answer is 'YES', encircle code '1' and proceed to ask the total value of each crop harvested by the family member, value consumed and value given away as gifts. Otherwise, encircle code '2' and go to the next subsection.

Under this question are five columns: list of crops (Col.1), code (Col. 2), total value (Col. 3), value consumed (Col. 4) and value given away as gifts (Col. 5).

### Item 1. Cereals

Enter under this item the value of cereals harvested from the farm including those consumed and value given away as gifts. The total value and value consumed does not necessarily equal to total value of production due to stock on hand or value sold.

### Item 2. Roots and Tubers

The enumerator has to inquire on the main crops of the area so that important crops such as potatoes, sweet potatoes (camote), cassava and gabi are reported. In mountainous area, root crops such as ube, tugui, etc., are common crops. Therefore, more effort should be made to inquire specifically for these items.

Enter under this item the total value of roots and tubers harvested from the farm, value consumed and value given away as gifts by the sample family.

### Item 3. Fruits and Vegetables

There are certain kinds of fruits and vegetables that are seasonally grown. Be sure to inquire as to the kind of fruits and vegetables, which are in season during the reference period. Lump the value of all fruits and all vegetables harvested. If "copra" making is an integral part of farming, report "copra" under Item 4, Others. Note that the value of coconut made into "copra" should be excluded in Item 3. Other crops such as peanuts, casoy and pili nuts are to be included in Item 3. Enter under this item the value of fruits and vegetables harvested from the farm including those consumed and given away as gifts.

### Item 4. Others

There are still other food and non-food crops that are not covered in Items 1 to 3 such as tobacco, coffee, sugarcane and other industrial crops. Lump the value of tobacco, coffee, sugarcane and other industrial crops in these items. Report also in this item manufactured goods that are by products of farm goods such as abaca fiber, "basi", "tuba", etc. Include tuba gathering in this section, if production is in the farm of a family member who is the farm operator. If processing is already an activity of an establishment, this activity will be reported in Manufacturing (L.6). Enter under this item the value of other food and non-food crops harvested from the farm including those consumed and given away as gifts.

After completing all the entries in the "total value column", add the vertical totals and enter them at the bottom of the frame.

## Incur expenses, in cash or in kind, in the production of the (N1C) File: 1999APISH

### Overview

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 0-2

Valid cases: 0 (0)  
Invalid: 0 (0)

### Literal question

During the PAST SIX MONTHS, did you or any member of your family incur expenses, in cash or in kind, in the production of the crops harvested?

### Interviewer instructions

Report here the expenses that were incurred in connection with the production of the crops reported in N.1 (b). In order to assist the respondent in remembering the items of expenses, read out each item listed such as inputs (seeds, fertilizers, etc.), wages of hired labor/paid family members, and other expenses (rent of land, irrigation fee, etc.). If the activity has a formal payroll system where the proprietor or other members of the family are actually paid salaries or wages, these expenses should be reported under Item 2 - wages of hired labor and paid family members. On the other hand, if wages of hired labor were paid in kind, say from the harvest; impute the value based on the prevailing market price. Report the expenses only if the family made an actual harvest during the reference period. Furthermore, the expenditure to be reported is the total expenditure incurred for the area/trees harvested even if such expenditures were made prior to the indicated reference period. On the other hand, expenses incurred for crops raised but not harvested during the period will be excluded. Thus, if part of the crop was harvested during the reference period and part was not, try to ascertain from the respondent the approximate expenses for the crops harvested during the reference period.

Do not forget to add the row and column totals. Enter totals in appropriate line or column.

Computation of Net Income: Enter the "Total Value" of production in the appropriate location. Then enter the total costs and obtain the difference. If the net income is negative (total value is less than the total cost) inquire why it is so. It is possible that the production was understated or the expenses may have included expenses incurred in planting other crops, which are not yet harvested. Resolve the problem before going to another section. If the net income is really negative, write explanation/remarks.

## Engage in livestock or poultry raising such as raising of ca (N2A) File: 1999APISH

### Overview

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 0-2

Valid cases: 0 (0)  
Invalid: 0 (0)

### Description

An operator under this activity should have at least raised at any time during the reference period whether for business or for home consumption any of the following:

Fowls at least one month old  
- 30 or more chicken or ducks  
- 10 or more turkeys or geese  
- 50 or more pigeons  
- 100 or more quails  
or a proportional combination of the above, more or less

Animals  
- 3 or more pigs at least 3 months old  
- 3 or more goats  
- 10 or more rabbits  
or a proportional combination of the above  
- 1 cattle, carabao or horse

Consider a person working for profit if he intends to engage in poultry or animal raising as a regular business, even though the number of poultry or animals at the start of the business or at a certain time may be less than the minimum prescribed above.

### Literal question

During the PAST SIX MONTHS, did you or any member of your family engage in livestock or poultry raising such as raising of carabaos, cattle, horses, hogs, chicken, ducks, etc. and produce any livestock and poultry products such as milk, eggs, etc.?

### Interviewer instructions

## Engage in livestock or poultry raising such as raising of ca (N2A)

File: 1999APISH

Read the question as worded. If the reply is 'YES', encircle code '1' and ask the next questions; otherwise, encircle code '2' and proceed to the next subsection.

Item 1. Livestock and Poultry (pigs, cattle, chicken, carabao, etc.)

Report under this item the quantity disposed of which were sold, consumed or given away as gifts to other persons outside the family during the reference period. If the family raised some livestock and poultry but no disposal was made during the reference period, there should be no entry in this item.

Item 2. Livestock/Poultry Products (milk, eggs, etc.)

Bear in mind that there should be entries in this item even though there was no disposal made for as long as there was production of livestock/poultry products during the reference period. Note that those produced prior to the reference period but disposed of during the reference period are not included. Hence, make an estimate of the total value of the products produced regardless of whether these were sold, consumed or given away as gifts. Unlike in Item 1 above where only those actually disposed of were included, in this item, all production are included. For instance, if the family produced "balut", report the total value of "balut" produced in Column 3 even if some are not yet disposed of. Other examples of livestock/poultry products are eggs, bacon, sausages and ham, etc.

## Dispose of any livestock and or poultry, whether sold, consu (N2B)

### Literal question

During the PAST SIX MONTHS, did you or any member of your family dispose of any livestock or poultry, whether sold, consumed or given away, or did you or any family member produce livestock/poultry products?

### Interviewer instructions

This question obtains data on the value of livestock and poultry disposed of and the value of livestock/poultry products produced whether or not they were disposed of during the reference period.

If the answer is 'YES', encircle code '1' and proceed to ask the total value of the livestock/poultry disposed of and the livestock/poultry products produced by the family member, value consumed and value given away as gifts. Otherwise, encircle code '2' and go to the next subsection.

Follow the same procedure as discussed in Subsection N.1 on how the different columns are filled up. Enter the column totals for the total value, value consumed and value given away as gifts.

## Incur expenses, in cash or in kind, in rising the livestock (N2C)

File: 1999APISH

### Literal question

During the PAST SIX MONTHS, did you or any member of your family incur expenses, in cash or in kind, in raising the livestock and poultry disposed of, or in producing the livestock/poultry products?

### Interviewer instructions

It is important to account for the expenses (in cash and/or in kind) incurred in connection with the raising of livestock and poultry disposed of and the cost of producing the livestock/poultry products. In small-scale livestock and poultry raising, the amount spent for fuel, electricity and water may be lumped with the personal consumption of the family. Try to estimate the proportionate cost incurred for the enterprise.

To derive the net income from this enterprise fill up the darkened portion of the frame. If the net income is negative, inquire as to the reason. Maybe some of the animals and fowls which were raised died and their acquisition cost was included in the valuation of the total value of animals/fowls disposed of. Be sure to write an explanation below the darkened frame.

## Engaged in fishing activities such as capturing fish (with (N3A) File: 1999APISH

### Description

A family member is considered as an operator in fishing if the fishing activity is mainly for sale.

### Literal question

During the PAST SIX MONTHS, did you or any member of your family engage in activities such as capturing fish (without/with boat of three tons or less), gathering fry, shells, seaweed and other aquatic animals or products and culturing fish, mussel, etc.?

### Interviewer instructions

Ask the question as worded. If the reply is 'YES', encircle code '1' and proceed to ask the next question (b); otherwise, encircle code '2' and skip to the next subsection.

Be reminded that a family member is considered as an operator in fishing if the fishing activity is mainly for sale. If the family member is engaged in fishing mainly for home consumption, the reply to this question should be No. The fishing activity therefore should be entered in Section L - Family Sustenance Activities.

## Catch/Gather/Harvest fish or aquatic products for the past s (N3B) File: 1999APISH

### Overview

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 0-2

Valid cases: 0 (0)  
Invalid: 0 (0)

### Literal question

During the PAST SIX MONTHS, did you or any member of your family catch/gather/harvest fish or aquatic products?

### Interviewer instructions

If the answer is YES, encircle code '1' and proceed to ask the total value of the fish and other aquatic products caught/harvested. Otherwise, encircle code '2' and go to the next subsection.

The instructions on how to fill up the total value column in this subsection are the same as that of subsections N.1 and N.2.

The fish and aquatic products included in this subsection are as follows:

#### Item 1. Fish and Other Products Caught

Include all types of fishes caught in seawater or fresh water, fishes gathered/harvested from fishponds or fishpens such as milkfish, biya, galunggong, ayungin, talakitok, etc. Report also all fry gathered, which include milkfish fry and sugpo fry gathered in seawater or brackish water.

Likewise, all fishes caught which were made into "daing" or "bagoong" or "buro" or "sinaing" are also included.

#### Item 2. Other Products Gathered/Harvested

Include clams, crabs, shrimps, squid, agar-agar, sponge, sea or fresh water shells, snails, water hyacinth gathered, seaweed, oyster and mussel harvested, "lumot" gathered from fishponds, sea shells gathered in seashores like puka shells, pearl shells, star fish, sea cucumber, sea corals and other fresh water and sea products.

Be sure to fill up the value columns in the same manner as earlier instructed.

## Engage in forestry activities as tree planting (ipil-ipil), (N4A)

File: 1999APISH

### Description

A family member is an operator in any of the following activities:

1. tree planting such as ipil-ipil and the like to reforest an area or for firewood purposes
2. firewood gathering for sale
3. small-scale logging but exclude concessionaires
4. charcoal making for sale as an ancillary activity of forestry and hunting activities; and
5. gathering forest products such as rattan, cogon, nipa shingles, bamboo, resin gum, etc., for sale.

Any of the activities undertaken must be mainly for sale to be reported under this section.

### Literal question

During the PAST SIX MONTHS, did you or any member of your family engage in forestry activities such as tree planting (ipil-ipil), firewood gathering, small scale logging excluding concessionaires, charcoal making, gathering forestry products (cogon, nipa, rattan, bamboo, resin, gum, etc,) or hunting wild animals/birds?

### Interviewer instructions

Ascertain whether a family member is an operator in any of the following activities:

1. tree planting such as ipil-ipil and the like to reforest an area or for firewood purposes
2. firewood gathering for sale
3. small-scale logging but exclude concessionaires
4. charcoal making for sale as an ancillary activity of forestry and hunting activities; and
5. gathering forest products such as rattan, cogon, nipa shingles, bamboo, resin gum, etc., for sale.

Any of the activities undertaken must be mainly for sale to be reported under this section. However, any production mainly for home consumption should be reported in Section L - Family Sustenance Activities.

If the reply is YES, encircle code 1 and proceed to ask the next question (b); otherwise, encircle code 2 and skip to the next subsection.

## Dispose of (whether sold, consumed or given away) forestry p (N4B)

File: 1999APISH

### Overview

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 0-2

Valid cases: 0 (0)  
Invalid: 0 (0)

### Literal question

During the PAST SIX MONTHS, did you or any member of your family dispose of (whether sold, consumed, or given away) forestry products gathered or wild animals/ birds hunted?

### Interviewer instructions

## Dispose of (whether sold, consumed or given away) forestry p (N4B)

### File: 1999APISH

If the answer is 'YES', encircle code '1' and proceed to ask the total value of the disposal made on the forest products gathered or wild animal/birds hunted. Otherwise, encircle code '2' and go to the next subsection.

Report here those that were actually disposed of (consumed, sold and given away as gifts) during the reference period. If there was no disposal made during the reference period then there should be no entry.

Included in this inquiry are wild animals and birds caught and sold as "live" or as processed product. Examples of wild animals are wild boar, wild deer and crocodiles. Examples of birds are red maya, loro, martinez and wild pugo usually caught in lowland areas.

Compute for the vertical totals and enter at the bottom of the frame of this question.

## Engage in wholesale or retail activity inclding market vendi (N5A) File: 1999APISH

### Overview

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 0-2

Valid cases: 0 (0)  
Invalid: 0 (0)

### Description

This activity includes selling in bulk or in retail such as in sari-sari stores, in sidewalks or from house to house or rolling stores. A person is said to be an operator of this activity if he sells mainly for profit. Excluded here are farmers who go to market and sell their crops and livestock every now and then.

### Literal question

During the PAST SIX MONTHS, did you or any member of your family engage in wholesale and/or retail activity including market vending, sidewalk vending and peddling?

### Interviewer instructions

If the reply to this screening question is 'YES', encircle code '1' and proceed to ask the next question (b); otherwise, encircle code '2' and skip to the next subsection.

## Sell goods either on wholesale or retail basis during thhe p (N5B) File: 1999APISH

### Literal question

During the PAST SIX MONTHS, did you or any member of your family sell goods either on wholesale and/or retail basis?

## Sell goods either on wholesale or retail basis during thhe p (N5B)

File: 1999APISH

### Interviewer instructions

Ask the question as worded. If reply is 'YES' encircle Code '1', then ask the succeeding question; otherwise, skip to the next subsection.

How many months did you sell such goods?

Enter the number of months up to two decimal places. That is, if the operator was engaged in selling for a period of 6 weeks, the entry should be 1.50. One week is considered as one-fourth of the month in this survey. On the average, there are really 4.3 weeks to a month but to simplify computations, one week is considered 0.25 month.

The number of months should not exceed 6.00 months. After entering the number of months in operation, ask the next question.

What is the average gross sale per month?

The purpose of this question is to get a good estimate of the total volume of sales during the reference period. However, if the respondent has an accurate record every month, and all the gross sales for the 6 months are available, then enter the "Total Sales" on the space provided. Compute for the "average sales per month" by dividing "total sales" by the number of months in operation. Round off to the nearest peso if the quotient has a centavo portion before making an entry.

However, if the respondent has no record of sales, inquire on the average gross sales per month. Enter it on the space provided. To derive "Total Sales", multiply the number of months in operation by the average gross sales for one month. Enter the product in TOTAL SALES.

## How many months did you sell such goods? (N5B1\_00521)

## Incur expenses, in cash or in kind, in selling such goods du (N5C)

File: 1999APISH

### Overview

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 0-2

Valid cases: 0 (0)  
Invalid: 0 (0)

### Literal question

During the PAST SIX MONTHS, did you or any member of your family incur expenses, in cash or in kind, in selling such goods?

### Interviewer instructions

The major expenses in the operation of a wholesale and retail enterprise are the cost of goods sold. If there were no hired labor, i.e., the operator and some of his family members did the selling, do not impute the cost of labor. However, if a helper was hired, include the payments made as expenses of the enterprise. Include also the fuel, light and water spent in connection with this enterprise.

Ask the question as worded and encircle the appropriate code. If the response is YES then proceed to ask the items of expenses as listed in the subsection.

#### Item 1. Cost of Goods Sold

This refers to the acquisition value of the goods actually sold. If the goods were purchased in cash, enter in cash column. It should be noted that the term "in kind" in this portion refers to goods which were acquired on consignment basis. Enter the acquisition value in the "In Kind" column. Add the two columns and enter the sum in "Total" column.

Assess the net income, if reasonable. Goods taken by the family for personal consumption, if not paid for, should not be entered in this section but make sure to include it in the Total Sales N5(b). Treat these cases as if the family bought the goods in cash and report this value of goods in Section Q - Family Expenditures. Profit from sales of items ranges from 10 to 50 percent. Fast moving items such as biscuits, candies, etc. can net a profit of as high as 50 percent. Depending upon the kind of commodities sold, try to assess the reasonableness of the net income reported.

#### Item 2. Others

Enter here all other expenses incurred in connection with the wholesale and retail activities such as wages paid, rental of store space, licenses, mayor's permit, light, water and other expenses.

## Engage in such manufacturing activities as mat weaving, tail (N6A) File: 1999APISH

### Overview

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 0-2

Valid cases: 0 (0)  
Invalid: 0 (0)

### Description

Manufacturing is the process of transforming raw or semi-finished materials into new form or finished products whether the work is performed by hand or by power-driven machine, whether it is done in a factory or in a worker's home, and the products are sold at wholesale or retail. Exceptions are banana cue making, popcorn, fishballs and the like which should be classified as Wholesale and Retail Activity.

Do not include under this section, manufacturing activities that are an integral part of other activities like copra making or panocha making and dried fish making which should be reported under "Crop Farming and Gardening" and "Fishing" subsections, respectively.

If selling the manufactured products is an ancillary activity in manufacturing, do not enter any in "Wholesale and Retail" section. However, if there is a separate entity managed by another family member that takes care of marketing the manufactured goods, then separate entries should be made in Section L.5.

### Literal question

During the PAST SIX MONTHS, did you or any member of your family engage in manufacturing activities such as mat weaving, tailoring, dressmaking, bagoong making and fish drying?

### Interviewer instructions

Ask the respondent the question as worded bearing in mind that the manufactured goods are mainly for sale. If the response is 'YES', encircle code '1' and proceed to ask the next question. Otherwise, encircle code '2' and skip to the next subsection.

## Major activity for the past six months (N6B) File: 1999APISH

### Overview

## Major activity for the past six months (N6B)

File: 1999APISH

Type: Continuous

Format: numeric

Width: 3

Decimals: 0

Range: 0-949

Valid cases: 0 (0)

Invalid: 0 (0)

**Literal question**

Describe the major activity

**Interviewer instructions**

Inquire as to the specific manufacturing/processing activity. If there are two or more activities like dressmaking and tailoring, determine which activity is considered the major activity and enter in the line provided. Other activities which are not considered major should be described under the computations/remarks column with the corresponding period of operation.

The provincial office will provide the code corresponding to the major manufacturing activity.

## Sell any of the goods manufactured during the past six month (N6C)

File: 1999APISH

**Overview**

Type: Discrete

Format: numeric

Width: 1

Decimals: 0

Range: 0-2

Valid cases: 0 (0)

Invalid: 0 (0)

**Literal question**

During the PAST SIX MONTHS, did you or any member of your family sell any/receive fee of the goods manufactured?

**Interviewer instructions**

The questions asked here are similar to those questions asked in the previous subsection (Wholesale and Retail) so fill up the answers in accordance with the previous instructions in subsection N.5(b). Exclude the goods consumed by the family if these were not paid for. Note that while Question (a) of this subsection seeks to ascertain if a family member engaged in any manufacturing activity during the reference period, Question (c), on the other hand, explicitly asks about the sale of goods manufactured. Hence, the report in Question (c) is the number of months when sales were made and not the number of months of manufacturing goods during the said period. The goods sold may have been manufactured before or during the reference semester.

If there are more than one manufacturing activities reported, the number of months to be entered is the average number of months when the manufactured products of these activities were sold.

**Literal question**

During the PAST SIX MONTHS, did you or any member of your family consume and/or give away as gifts any of the goods manufactured?

**Interviewer instructions**

In filling up this section, the value to be asked will refer to the goods consumed by the sample family and to the goods given away as gifts to relatives (those that are not enumerated with the sample family), friends and others, regardless of when the goods were manufactured. The code for the goods specified are as follows:

**Goods Code**

Cereal preparation 00631  
 Preparation from roots and tubers 00632  
 Fruits and vegetables preparation 00633  
 Meat preparation 00634  
 Processed fish and marine products 00635  
 Other food items 00636  
 Alcoholic beverages (native wine) 00637  
 Other non-food items 00638

Do not include gifts given to others to promote the increase in sales of the manufactured goods. These "give away" should be charged as expenses for the enterprise in Item 2 (Others) of question N6(e).

## Operate any activity providing community social, recreational (N7A)

### File: 1999APISH

Any member of the family works for pay for services offered/rendered. The practice of one's profession or trade is also included under this section like dentists, doctors, beauticians, etc. The scope of this section includes the operation of family enterprises in the following:

1. Restaurants, bars, cafes and other eating and drinking places;
2. Boarding houses and lodging places;
3. Repair shops (motor vehicles, electrical, footwear, watch and jewelry, etc.)
4. Recreational establishments like bowling alleys and billiard halls, resorts, etc.;
5. Laundry shops or home laundry, barber shops, beauty shops, shoe shine, etc.;
6. Education services in all levels; and
7. Medical, dental and laboratory services

#### Literal question

During the PAST SIX MONTHS, did you or any member of your family operate any activity providing community, social, recreational and personal services such as medical and dental practice, practice of trade, operation of schools, restaurants, and hotels, etc.?

#### Interviewer instructions

Include in the average gross receipts per month the value consumed during the period from family-operated carinderia.

Remember to exclude business establishments, which are registered with the SEC. You can discern this if the name of the establishment has "INC" (means "incorporated") affixed to the business name of the enterprise (sign board). If for instance the residence of the family is located in the place where they offer services, and the sign board does not show "INC", inquire as to the organization so that decision can be made whether to include it or not.

**Description**

## Operate any activity providing transportation, storage and c (N8A)

### File: 1999APISH

Report the following activities under this subsection:

1. Operation of buses, jeeps, freight trucks, service vehicles, calesas, tricycles and motor boats;
2. Small transport enterprises like carts, ferrying persons across rivers, etc.;
3. Family cars and jeeps, etc., which might have been used to transport persons or a freight for fee;
4. Tour and travel agencies;
5. Storage and warehousing, including cold storage and grain warehouses; and
6. Messengerial services.

#### Interviewer instructions

Like in preceding sections, accomplish questions (a) and (b) according to previous instructions. As in the previous subsections include in the gross receipts the imputed cost of transport incurred by any family member who uses the vehicles say, in going to school and/or place of work. They are treated as if the family paid for it.

Decimals: 0  
Range: 0-2

Valid cases: 0 (0)  
Invalid: 0 (0)

### Interviewer instructions

In reporting the expenses of an operator, say a taxi operator, he may have a record of gasoline/diesel and oil expenses in operating the vehicle including spare parts and washing cost. Try to inquire his average monthly expenses for recurring items and make an estimate for the reference period.

All other expenses not falling in Item 1 should be lumped together and entered in Item 2. This item includes repairs and purchases of spare parts which occur occasionally, inquire if there was such an expense during the reference period. For calesa operators, the cost of animal feeds for the horse should also be entered under this item. If the feed is not bought but taken from the farm then impute the value. Do not forget to compute the net income at the bottom portion of the section.

Contact services for the construction or repair of a house, (N10A)  
File: 1999APISH

**Overview**

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 0-2

Valid cases: 0 (0)  
Invalid: 0 (0)

**Description**

Construction to be reported here are those services contracted by any member of the family for the construction or repair of a house, building, or any structure. "Small time" contractors are included here while big contractors, which have juridical personality (corporations or partnerships) are excluded.

**Literal question**

During the PAST SIX MONTHS, did you or any member of your family contract services for the construction or repair of a house, building or any structure?

**Interviewer instructions**

Ask the question as worded and find out if anybody among the family members was engaged during the reference period in any construction work, addition or repairs. If the reply is YES, encircle code 1 and proceed to question (b). If the reply is NO, encircle code 2 and go to the next subsection.

## Receive payment for the construction activity for the past s (N10B)

### File: 1999APISH

#### Overview

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 0-2

Valid cases: 0 (0)  
Invalid: 0 (0)

#### Interviewer instructions

Report here the total amount of the contract for the job or jobs. If a family member was paid wages for doing an alteration, it should not be entered in this section because he is not an operator. He is a wage worker so report his earnings in Salaries and Wages from Employment of Section E.

## Total gross receipts received for the construction activitie

### (N10B1\_01020)

### File: 1999APISH

Invalid: 0 (0)

## Incur expenses, in cash or in kind, for the construction act (N10C)

### File: 1999APISH

#### Overview

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 0-2

Valid cases: 0 (0)  
Invalid: 0 (0)

#### Literal question

During the PAST SIX MONTHS, did you or any member of your family receive payment for the construction activity?

#### Interviewer instructions

A contractor usually provides labor but sometimes he contracts the entire structure without the owner providing any material. In asking about expenses, try to provide the details as called for in this portion. Try to assess the construction enterprise if the net income is realistic. Usually contractors are allowed a margin of profit of about 15 percent which is added to the cost estimates of materials and labor. The contracted price of labor is 30-40 percent of the total cost of materials.

## In Cash, wages of hired labor and paid family members

## Engage in other entrepreneurial activities not elsewhere cla (N11A) File: 1999APISH

### Overview

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 0-2

Valid cases: 0 (0)  
Invalid: 0 (0)

### Description

This subsection will not only cover all other entrepreneurial activities in the non-agricultural sector which do not fall in any of Subsections N.5 to N.10 but also include agricultural services like renting out of farm machinery and equipment.

The activity may be any of the following:

1. electricity, gas and water;
2. financing and insurance, including money lending;
3. real estate business, excluding property income covered in Section H. Net Share of Crops, etc. and Section P. Item 5 - Sale of Real Personal Property;
4. legal services (include lawyers);
5. accounting, auditing and bookkeeping services; and

### Literal question

During the PAST SIX MONTHS, did you or any member of your family engage in other entrepreneurial activities not elsewhere classified such as legal, accounting, engineering services, advertising services, machinery and equipment renting and leasing?

### Interviewer instructions

Ask the question as worded and find out if anybody among the family members was engaged during the reference period in other entrepreneurial activities. If the reply is YES, encircle code 1 and proceed to question (b). If the reply is NO, encircle code 2 and go to the next subsection.

## Major activity for the past six months (N11B)

Invalid: 0 (0)

### Description

This item will cover specifically all cash receipts from all sources outside the Philippine territory. They may come from family members, non-relatives, foreign government and charitable institutions.

Entries should be in pesos. Examples of sources of cash receipts from abroad are as follows:

a) Cash received out of salaries/wages and other sources of income of a family member who is a contract and non-contract worker abroad

b) Cash receipts sent by a family member of the household with a status of residency abroad other than that of a contract worker (immigrant, tourist, with student visa, etc.).

A contract worker is a person hired abroad for a definite period, like those who are in Saudi Arabia and other Middle East countries. Non-contract workers are those who are abroad with no definite date of return such as immigrants

c) Pensions, retirements and other benefits received from the U.S. government and other foreign government and enterprises. An example is the pension received by World War II veterans from the U.S. government

d) Cash gifts, support, etc., from relatives who are abroad, foreign charitable groups and foreign government

e) Income from abroad accruing from dividends from investment, net income from business, rental from properties and other property income

### Literal question

During the PAST SIX MONTHS, how much did you or any member of your family receive on the following?

## In Cash, receive cash receipts, support, assistance and reli (O2CSH\_93020) File: 1999APISH

### Overview

### Description

## In Cash, receive cash receipts, support, assistance and relief (O2CSH\_93020)

File: 1999APISH

Government - enter in this line the cash received by the family from any government institution like the DSWD or the Local Government unit.

Private - enter in this line the cash received by the family from the other people or private institution. Include also in this line the cash received from family members, not enumerated as members of the household because he is not expected to return within 30 days from date of departure.

### Literal question

During the PAST SIX MONTHS, how much did you or any member of your family receive on the following?

### Interviewer instructions

Inquire about cash receipts, support, assistance and relief received by family members from other families living in the country and from the Philippine government. Include also those received from a family member, not enumerated as a member of the household because he is not expected to return within 30 days from date of departure.

When you come across a needy or a poorly situated family, ask nicely/politely if they received any cash assistance or relief from relatives living in a separate household. Inquire also about cash receipts from charitable institutions, Red Cross, Department of Social Welfare and Development, etc.

Note that, only cash receipts from abroad and domestic sources will be entered in Items 1 and 2, respectively.

## In Cash, receive cash receipts, support, assistance and relief (O2ACSH\_93021)

Range: 0-1200000

Valid cases: 0 (0)  
Invalid: 0 (0)

### Literal question

During the PAST SIX MONTHS, how much did you or any member of your family receive on the following?

### Interviewer instructions

Net income derived from rentals from non-agricultural lands, buildings, spaces and other properties shall be entered under this item. Take note that this item refers to lands, buildings, etc., which are rented out to other families by the sample family. This will cover only rental from non-agricultural lands, buildings, spaces and other properties from domestic sources. Those from abroad are accounted for in Item 1. In urban areas, especially in commercial and educational centers, be sure to inquire on rentals received from residential and commercial lots and buildings owned by the family. Also, ask rentals of rooms and spaces leased or sub-leased by the family to others. Rentals of other properties will include renting out of chairs, wearing apparel, jewelry, as long as these are not family enterprises.

However, this item excludes rental from agricultural land used by the family for agricultural production. Income from this activity will be included in Subsection N.11 - Entrepreneurial Activities Not Elsewhere Classified. However, if the relationship is that of a landlord and tenant, rental of agricultural lands shall be included in Section M - Net Share of Crops, etc.

### Literal question

During the PAST SIX MONTHS, how much did you or any member of your family receive on the following?

### Interviewer instructions

## In Cash, receive interest (includes banks and loans extended (O4CSH\_93040)

File: 1999APISH

Interest in cash may be the interest received by the family from bank deposits, or for money loaned to other families. It is possible that the family earned interest if there are loans granted to other families. For example, a landowner loaned 4 sacks of rice to another household who later paid 5 sacks of rice after harvest, the value of one sack will be recorded as interest in this item. For family members with dollar deposits, estimate the peso equivalent of the interest earned. Use current exchange rate.

# Total, average actual weekly consumption on food at home for (Q11TOT\_11000) File: 1999APISH

## Overview

Type: Continuous  
Format: numeric  
Width: 8  
Decimals: 0  
Range: 0-16700

Valid cases: 0 (0)  
Invalid: 0 (0)

## Description

Family expenditures refer to the expenses or disbursements made by the family purely for personal consumption. Therefore, it excludes all expenses in relation to farm or business operations, investment ventures, purchase of real property and other disbursements, which do not involve personal consumption.

Gifts, support, assistance, or relief in goods and services received by the family from friends, relatives, etc. are considered as income but at the same time treated as expenditures of the family for purposes of balancing the family account.

It should be emphasized that expenditures incurred by family members who are overseas contract workers on vacations during the reference period are to be excluded since they are not counted as family members.

## Universe

This section gathers all data on the basis of average/normal weekly consumption of the family. The family members to be included are those defined in Section B.

## Literal question

During the PAST SIX MONTHS, how much on the average is your actual weekly consumption on the following?

## Post question

Includes all food items consumed from purchases made whether in cash or on credit, received as gifts and own-produced. Round to the nearest peso

## Interviewer instructions

There are four columns by which data have to be entered for each item as follows:

1. Total value consumed
2. Value consumed from purchases made whether in cash or on credit
3. Value of goods which are in kind  
= Value in Kind column should come from value consumed from net share of crops (Sect. M), Family Sustenance Activities (Section L) or Entrepreneurial Activities (Section N).
4. Value of goods which are received as gifts

Food consumption covers only the actual food consumption of the family. Consumption of domestic helper as well as persons employed by the family to do odd jobs around the house may be included if they cannot be accounted for separately. The consumption of the boarders and other persons in the same household not related to the family as well as overseas contract workers on vacation during the reference period are excluded. Food consumed by the family and its guest on special occasion during the reference period are excluded here. But do not forget to report on Q3. Item 9 - Special Family Occasions. Similarly, food especially for pets is to be entered in Q3. Item 3 -Recreation.

### Description

## Total, average actual weekly consumption of food regularly c (Q12TOT\_12000)

File: 1999APISH

Only food regularly bought and eaten outside the house like snacks (merienda), lunch, etc. are included in this item. Note that the daily allowances of school children for their sandwiches, soft drinks, etc., at school are also covered by this category. Thus, if the schooling members of the family are given regular allowance, estimate the amount of the average weekly food consumption and report it here. In estimating the amount to be entered, take note of those months when schooling children are usually on vacation. Do not, however, forget to report the amount used for their transportation in I2. Item 2 - Transportation and Communication. Any food expenditure incurred by any family member who habitually goes to discos or nightspots will not be included here but will be recorded under Q3. Item 3 -Recreation.

#### Post question

Includes all expenses/consumption whether purchased/paid for in cash/on credit, received as gifts or own-produced. Round to the nearest peso.

#### Interviewer instructions

## Total, average monthly consumption of fuel, light and water (Q21TOT\_21100)

File: 1999APISH

Enter the total amount of fuel, light and water consumed by the family during the reference period including those received as gifts (i.e., neither paid nor produced by the family). It is very important that you stress the use of records while completing this item. If the respondent will make use of the official receipts of payments, or some other record of the bill, it will yield more accurate information and will make the interviewing of this item more quickly. Request therefore for official receipts or billing statements for electricity and water connected in a community water system.

Attempt to estimate the consumption of charcoal, firewood and other fuel. For users of LPG, estimate the number of days by which one tank is consumed so that the month's consumption can be determined.

In case a family shares the facilities with other households, only an estimate of the family's consumption should be included. The cost of LPG, kerosene, electricity and water used by the other families occupying a part of the house of the sample family should be excluded. In this situation, ask for the amount shared monthly by the sample family.

LPG, kerosene, electricity and water used in business either operated by the family or the other family sharing a part of the house should also be excluded. In such a case, ask the respondent to estimate the amount consumed for private use of the family. You may help the respondent estimate the family's electric consumption by making list of the household's electrical appliances in the Computations/Remarks, together with their wattage and the frequency of use (e.g. average no. of hours used per day) during the month. Get the total kilowatt consumption for the month then multiply the value by the rate per kilowatt charged in the area. Enter the results in the "In cash/On credit" column. Subtract this value from the total bill and report the difference in Section L as cost incurred in operating a business.

If electricity is used to pump water from natural source for use of the family, enter the cost of electricity used in this item but do not impute any value for water in this case.

Water taken free of charge from surface wells, artesian wells, other community wells and from natural sources shall not be given any value.

If any family member is provided with free housing by his employer including light and water, ask for the estimate of the family's consumption on light and water and report under "In Cash/On Credit" column. However, do not forget to report the same amount under Wages and Salaries.

Make sure that the value entered in the "In Kind" column can be checked against the entries under Value Consumed in Family Sustenance Activities, Net Share of Crops and Entrepreneurial Activities.

### Literal question

During the PAST MONTH, how much on the average is your monthly expenses/consumption on the following?

### Interviewer instructions

## Total, average monthly consumption of transportation and com (Q22TOT\_22100)

File: 1999APISH

Includes all expenses on land, air and water transport fare; personal transport expenses such as gasoline, oil, repair and washing, purchase of spare parts, etc.; telephone bills, postage stamps, telegrams, moving fees, driving lesson fees, feeds for animals use for transportation, etc.

This should also include regular transportation and communication expenses of the family like the amount spent on regular trips made by the family members to and from the office, school, market, church, etc., and trips made during special occasions of the family, salary paid to the family driver, telephone bills, bus service fees, taxi fare, etc.

Do not include transport expenses incurred in relation to job or business trip taken by a member of the family. Exclude also plane fare of a contract or regular worker going to his job destination if the fare was paid by the employer.

Include all expenditures resulting from land, sea or air travel for personal purposes of any member of the family during the reference period whether the travel is within or to/from a destination outside the country.

If the family member uses the vehicle(s) intended for business purposes impute for the cost of transport incurred and enter in the "total column" portion. They should be treated as if the family actually paid for the transport. Do not forget to include the same amount as gross receipt In Section L.

There are transportation and communication expenditures which may be incurred by the family not on a regular basis that is, once a year, twice a year, etc., as in the case of family members calling/visiting their relatives from other provinces/countries only on special occasions like birthdays, fiestas, or family reunions. In such cases, ask from the respondent the estimate of the expenses incurred during a particular period and get the average monthly expenditure by dividing the total with 6.

Possible items under this item where the "average monthly" concept can be applied are the airplane transport, maintenance and repair, other personal transport expenses and other transportation and communication expenses.

Only the cost of the operations and upkeep of a family vehicle for family use only such as the amount spent for gasoline, oil, washing, repair, overhaul, purchase of spare parts, etc., are to be included. If a family owns an animal-drawn mode of transportation, the amount spent on the feeds and care for the animal will also be reported in this item. If, on the other hand, the family has a family vehicle used partly for business purposes, ask the respondent to estimate the amount of gasoline used for the trips made solely for private purposes of the family.

The purchase of vehicle, say the family car, is not included in this item but will be recorded in Q3. Item 6 - Durable Furnishing/Equipment. Likewise, driver's license and vehicle registration fees are to be entered under Q3. Item 7- Taxes.

For telephone bills (whether for landline or cell phone), encourage the respondent to show you the official receipts of the billing statements so that the interviewing of this part would be much faster than if records are not used. Also, the data obtained directly from the telephone bills are the most accurate information available.

Also, report the services and materials for transportation and communication received as gifts by the family from other individuals/families during the past month.

### Literal question

During the PAST MONTH, how much on the average is your monthly expenses/consumption on the following?

### Interviewer instructions

Considered as household operation expenditures are laundry soap/detergent and other cleaning products; other consumable used for household operation such as starch for clothes, floor wax, insect spray, rat and mosquito killer/coil, air freshener/deodorizer, fluorescent and incandescent bulbs, matches, brooms, husks, battery, naphthalene balls, etc.; laundry and dry clean services; payment of wages given to domestic helpers, gardeners, baby sitters, cooks, etc.; repair and maintenance of household appliances.

Expenditure on consumables and other materials used for household operations are to be reported in this item. The total value of consumption is to be entered in the "Total" column. Include in the "In cash/on credit" column the total value of purchased consumables used by the family for its household operations during the reference period.

If any item/material was received as a gift and consumed by the family, enter the imputed cost of the item/material under the "Received as Gifts" column.

## Total, average monthly consumption of personal care and effects (Q24TOT\_31100)

File: 1999APISH

### Interviewer instructions

This item gathers the value of items purchased or services availed of by the family on personal care and effects during the past month.

Examples of expenditures on personal care and effects are beauty aid and toilet articles such as cleansing cream, astringent, body deodorant, lotion, baby oil, make-up cosmetics, perfumes, powder, razor blade, toilet/bath soap, toilet and tissue paper, toothpaste, sanitary napkins, shampoo, conditioner, etc.; personal effects such as fine and costume jewelry, wristwatch, handbag, wallet, umbrella, etc.; beauty parlor and barbershop service fees; and services paid for sauna bath, body massage, aerobics, fees for dance instructors, etc.

If any member of the family bought any item or paid for any services for his own personal care and effects, enter the value of the item(s) or services under "In cash/on credit" column. However, if the goods were received as gifts or the services were rendered free by any non-family member to the sample family, enter the imputed value in Received as Gifts" column.

### Literal question

During the PAST SIX MONTHS, how much on the average is your actual disbursements/ expenditures on the following?

### Interviewer instructions

The expenditures on special family occasions may consist of food and refreshments; alcoholic beverages; services; rental of place, facilities and equipment; and package tours. Examples of special occasion are birthdays, weddings, baptismal parties, anniversaries, etc. However, if no guests were expected although there was reason to celebrate, report whatever preparation made by the family under regular expenditures. An exception to this is the case where the family had no guests but food was prepared and given to neighbors.

Other items of expenditures incurred because of a special family occasion should be included in the corresponding expenditure groups. Thus, expenses for the wedding dress and other effects should be reported under Item 8. Clothing, Footwear and Other Wear

### Interviewer instructions

This expenditure group covers all gifts, contributions and all forms of assistance given by the family to others, e.g. tithes, contributions to church during the mass, religious institutions and to other individuals outside the family. The amount disbursed should come from the income of the family during the reference period. Hence, gifts given during the reference period but came from withdrawals from savings deposit from the bank, or from loans obtained from others as well as gifts taken from production outside the period should not be included. Exclude the value of used clothing and other old personal properties of the family given away to individuals outside of the family.

### Literal question

During the PAST SIX MONTHS, how much on the average is your actual disbursements/ expenditures on the following?

### Interviewer instructions

Other disbursements refer to non-family expenditures, which may give an indication of savings on the part of the family.

Record in this expenditure group all other disbursements (in cash) of the family during the indicated reference period. Specific examples of items to be reported here are loans granted to persons who are non-family members, continuing installments paid on durable furnishings/equipment bought before the reference period, money deposited in banks.
